Outdoor (Indoor) Free-Standing/Floor Mounted

Experts in this field, we manufacture a market leading range of outdoor portable signs and displays.

Some of these can be large and heavy, so design is critical. Often used in busy pedestrianised areas, in close proximity to parked vehicles or on the kerbside close to passing traffic, safety and reliability is imperative. At the same time they need to be easy to move, in and out of store on a daily basis if required, and poster graphics where applicable must be simple and quick to update. Other than occasional extremes they need to withstand the best and worst of the British weather, year in, year out.

Outdoor free-standing signage, in the retail, service and hospitality sectors in particular, is a powerful tool in the drive to increase market share and sales. With measurable return on investment, top brands and retailers use them widely and consistently to influence consumer decisions and drive footfall. Tactical and multi-functional they can act as a 'signpost' to your business whilst clearly communicating you are open for business. They can be particularly effective at influencing the impulse shopper.

Swinger

Patent No. 2437991 & 2464773
UK Design Registration No. 2071096
EU Design Registration No. 001274229

Why is Swinger the UK's market leading pavement sign?

- Beautifully designed and engineered.
- Low centre of gravity for maximum stability.
- Quick and easy no tools assembly.
- Individually boxed and flat packed with instructions.
- Soft round styling for high pedestrian safety.
- Fully recyclable.

- Optional clip-on Tactical Header (see page 12).
- Patented D-Flex panel hangers allow for easy no tools panel fitting. Flexibility and low friction ensures panel performance.
- Stylish steel frame available in black or white from stock, can also be powder coated in any RAL colour (minimum order quantity 25).
- Choice of aluminium panel or top-opening magnetic poster pocket (shown).
- Solid recycled PVC (shown) or water fillable HDPE polyethylene base options.

No Tools Assembly

- Simply push base onto frame.

OR

- For Swinger 2 simply lift frame through 90 degrees, straight from the box.

Built-In Wheels

- For ease of movement on heavier Swinger 3000 and 4000 models.

D-Flex Panel Hangers

- Friction-free panel movement.
- Unique design absorbs impact and protects the panel.

Hard-Wearing 'Black' Bases

- Solid recycled PVC on Eco Swinger and Swinger 2.
- Water-fillable polyethylene on Swinger 3000 and 4000 (shown).

Tactical Header

- Clip-on header available on all models.

Powder Coated Steel Frames

- White and black stock options on all models.
- Other colours available to order (minimum order quantity 25).

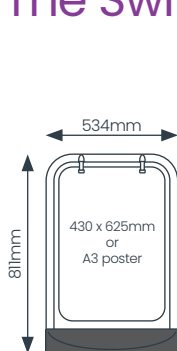

Top Opening Poster Pockets

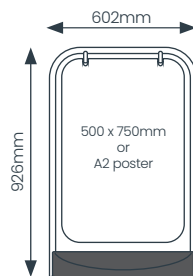

- Easy access poster change.
- Self closing magnetic seals provide excellent weather protection.
- Virtually no risk of poster loss.

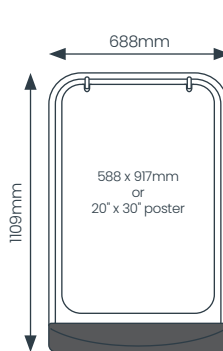

The Swinger Family

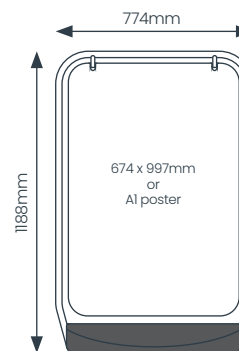

Eco Swinger

Swinger 2

Swinger 3000

Swinger 4000

Eco Swinger

The smallest Swinger in our range.

Instruction Video

- Gloss white aluminium panel (430 x 625 x 0.9mm) – ideal for direct to surface print or vinyl graphics.
- Alternative top opening polycarbonate double sided A3 poster pocket with magnetic seals.
- Poster pocket designed with header area for permanent branding – ideal for either direct to surface print or vinyl graphics.
- Stylish 32mm round steel tube frame – available in black or white from stock.
- Frames available in any RAL colour (minimum order quantity 25).
- Patented D-Flex panel hangers make panel fitting quick and easy.
- Solid black recycled PVC base provides excellent stability.
- Clip-on Tactical Headers also available, giving extra promotional space at minimal cost (see page 12).

Easy access top-opening poster pocket.

Effortless no tools assembly.

Fully Recyclable

Ecoflex (range overview)

Economical and eco-friendly – ideal for pavement, roadside and forecourt promotions.

Unique patented design. Incredibly secure – wedge simply slots through panel & locks into place.

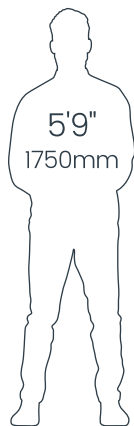

Ecoflex pavement signs tested to Storm Force 10 Beaufort Scale (not chalkboard variant).

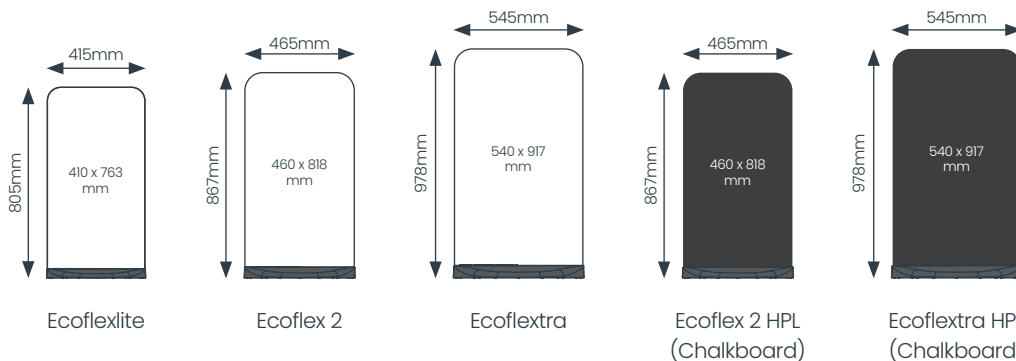

Bases available with embossed logos (minimum order quantity 500).

- Fully recyclable.
- Lightweight, portable design.
- Gloss white 1.2mm aircraft grade aluminium panel – ideal for screen/digital print or vinyl graphics.
- Rounded corners for pedestrian safety.
- Maximum visual impact with optimised display area, plus panel shape opportunities.
- Option of black High Pressure Laminate chalkboard panels.
- Rugged recycled PVC base provides low centre of gravity and high stability.

The Ecoflex Family

Ecoflexlite

Light on price, big on performance.

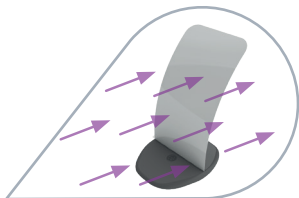

Instruction Video

- Ecoflexlite may be the smallest in our range, but it packs a punch with its 410mm x 763mm display area.
- Aircraft grade 1.2mm aluminium panel is ideal for screen/digital print or vinyl graphics.
- Unique patented wedge means assembly and disassembly in seconds with no tools required.
- Recycled PVC base provides great stability.
- Wind tested for maintenance free use whatever the weather.
- Option to have embossed logo in base (minimum order quantity 500).

Wedge simply slots through panel and locks into place.

Tested to Storm Force 10 Beaufort Scale.

Fully Recyclable

Ecoflex Chalkboard Panels

- 3mm High Pressure Laminate panel material is a tough writing surface ideal for traditional chalk and liquid chalk pens.
- Great for personalised messages, changing promotions and special offers.
- Options of branded panels using direct print or self adhesive vinyl.
- Liquid Chalk Pens available (see page 93).
- Chalkboard panels are available as standard on Ecoflex 2 and Ecoflexextra models.

Note : Chalkboard panels can only be used in bases manufactured to suit a 3mm thick panel.

Ecoflex 2 Totem & Ecoflexextra Totem

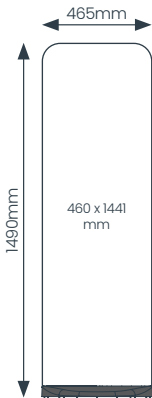

Extra tall panels for maximum impact.

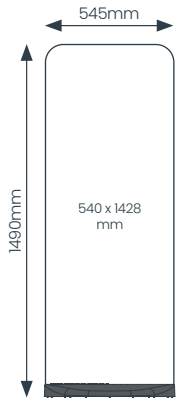

- 3mm thick Aluminium Composite (ACM) panels.
- Variable height up to maximum shown below.
- Ideal for screen/digital print or vinyl graphics.
- Unique patented wedge means assembly and disassembly in seconds with no tools required.
- Recycled PVC base offers good stability.
- Suitable for indoor or sheltered outdoor use.
- Totem panels can **only** be used in Ecoflex 2 or Ecoflexextra bases which are manufactured to suit a 3mm thick panel.

Wedge simply slots through panel and locks into place.

POW! Sign

Patent No's: GB2541956

EP3168826

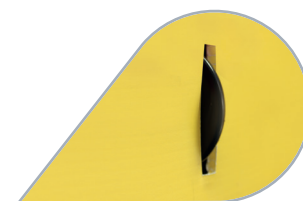

Going above and beyond the standard rectangular poster or banner sleeve.

- Panel sleeve design enables easy and cost effective graphic updates.
- Maintenance free reinforced polypropylene sleeve (15mm thick).
- Vibrant, larger than life images for high impact promotion.
- Long range visibility to capture both pedestrians and motorists attention.
- Wholly customisable with endless text and image combinations.
- Freestanding - no groundwork needed. Water-fillable and concrete base options available.
- Made to order (see minimum order quantities opposite).

Ideal for breakout shapes and disruptive designs.

Panel slots into place effortlessly.

Cost effective graphics, updatable in 1 minute.

Purpose designed trolley & hose available separately (see page 40).

Recyclable: steel frame, steel fasteners, polyethylene base & steel axle, bolt to ground steel frame

An innovation in large format double-sided signs, *POW!* delivers striking breakout shapes that are guaranteed to draw attention.

Instruction Video

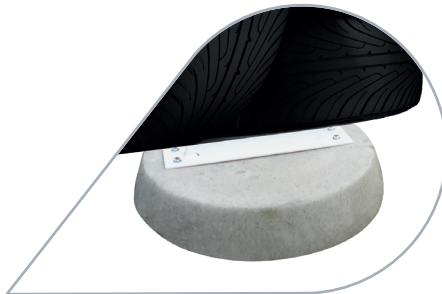

Base options

Waterfill Base

- Black water-fillable polyethylene.
- Built-in wheels for positioning (optional trolley available).

Concrete Base

- For more permanent positioning.
- Lower cost material but generally higher distribution cost.

Bolt to Ground

- A permanent installation option.

The *POW!* Family

Small *POW!*

Max Display Area:
980mm x 1180mm
(minimum order quantity 10*)

Medium *POW!*

Max Display Area:
1180mm x 1353mm
(no minimum order quantity
with waterfill base)

Large *POW!*

Max Display Area:
1425mm x 1667mm
(minimum order quantity 10*)

*Replacement panels no minimum order quantity.

Trolley and Hose

Convenient assistance for a selection of our large format signs.

- Purpose designed flat pack trolley for easy and safe movement of Sentinel[®], Sentinel[®] Banner, Cyclone 2, large-based Sightmaster 3 and POW!
- 3m hose with tap connector also available for convenient base filling.

Item	O/A Dimensions (mm)	Weight (kg)	Order Code

Premier A-Board

Unique design that leads the market on performance and functionality.

Instruction Video

Available in 2 sizes and 2 stock finishes with a choice of panel materials.

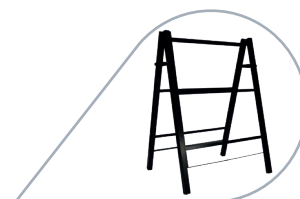

- 38mm x 38mm powder coated steel frame.
- Satin black and satin wood grain stock finishes.
- Unique hard-wearing rubber hinges allow feet to self-level on uneven surfaces and offer finger protection when handling.
- Reversible panels for added message flexibility and convenience.
- Fully assembled and ready for use straight out of the box.
- Frames also available in any RAL colour (minimum order quantity 25).

Panel material options

- 3mm black high pressure chalkboard laminate – for traditional chalk or liquid chalk pens.
- 3mm gloss white aluminium composite (ACM) – strong, light and very rigid.
- 5mm satin/matt white foam PVC – strong and lightweight.

Printed/shaped panel options.

- Custom shaped top edge available for all panel materials (minimum order quantity 25).
- Direct to surface digital/screen print available (no minimum order quantity).

Frame only also available.

Recyclable: steel frame, steel stays, ACM panels, foam PVC panels

Stylish locking arms.

Hard wearing rubber hinges.

Slide-in reversible panels in either...

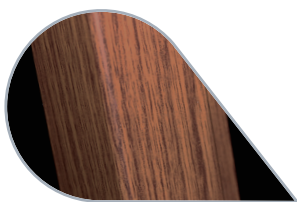

High pressure chalkboard laminate.

OR

White aluminium composite (ACM) or Foam PVC.

Wood Effect Finish

- Beautiful wood-grain patterned powder-coating in a satin sheen finish.
- Out performs real wood and maintains a high quality new wood appearance for longer.
- Other patterns/colours available (minimum order quantity and extended lead times apply).

Chalk A-Boards by Woodworkz®

Woodworkz® is our joinery-quality brand of in-house manufactured real wood sign and display products.

Large Premium Full Frame

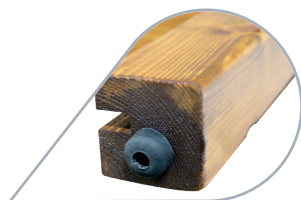

Medium Premium Reversible

Small Standard Full Frame

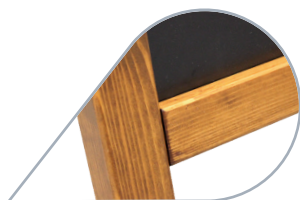

We only use sustainable and certified timber sourced from approved sawmills and distributors.

All models feature:

- 2-coat, low VOC, stained and satin lacquered for excellent weather protection.
- Stock 'Country Oak' finish.
- Good grain definition to emphasise real wood appeal.
- Single side locking-stay for stability on small and medium frames, 2 side locking-stays on large frames.
- Non-slip rubber feet.
- Precision mitres and joints – joinery quality.
- Hard-wearing laminate chalk panels for traditional chalk or liquid chalk pens.
- Bespoke sizes and colours available subject to minimum order quantity.

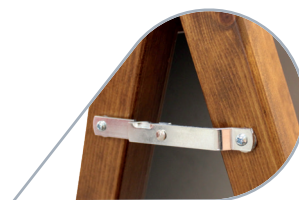

Rubber feet.

Durable finish.

Precision joinery.

Locking stay.

Our Woodworkz® Chalk A-Board range offers 7 models across 3 styles.

- Direct to surface print available (no minimum order quantity).
- Custom frame colours and sizes available to order (minimum order quantity 10).

Standard Full Frame

- 3 sizes – small, medium and large.
- 45 x 21mm frame profile.
- 6mm exterior chalk-face laminated MDF panels.
- Fully recyclable.

Premium Full Frame

- 2 sizes – medium and large.
- 45 x 45mm frame profile.
- 6mm exterior chalk-face laminated MDF panels.
- Fully recyclable.

Premium Reversible

- 2 sizes – medium and large.
- 45 x 45mm frame profile.
- 3mm high pressure laminate (HPL) reversible slide-in curve-topped panels.
- Recyclable: frame, steel locking stays and hinges.

Bollard Wraps

Transform any bollard into a high impact advertisement.

Bollard Wrap detail view.

- Simply pops over existing bollards for effective seasonal marketing or promotion of new products and services.
- Suitable for a wide range of bollard sizes from 100mm – 200mm diameter.
- Choose from 3 heights: 800mm, 1000mm and 1200mm.
- 3 sided and 4 sided options available.
- Graduated tabs allow quick and easy assembly without the need for any tape, fixings or tools.
- Fine-fluted 3mm Correx polypropylene for resilient outdoor use.
- No minimum order quantity.

Fully Recyclable

Outdoor (Indoor)
Free-Standing/Floor Mounted

Flying Banners

The popularity of Flying Banners, sometimes referred to as Event Flags, Sail Flags, Beach Flags or Feather Flags, has grown tremendously in recent years.

Proud to be at the forefront of this revolution our high quality printed textile flags are supported on high-strength carbon composite poles and friction-free bearing spindle, on a choice of base, ground spike or bracket mount.

We have invested heavily in research, product development and testing to ensure materials, print and product performance are amongst the best available whilst offering very competitive pricing.

Outdoor Performance

Naturally, Flying Banner life span depends on how and where they are used.

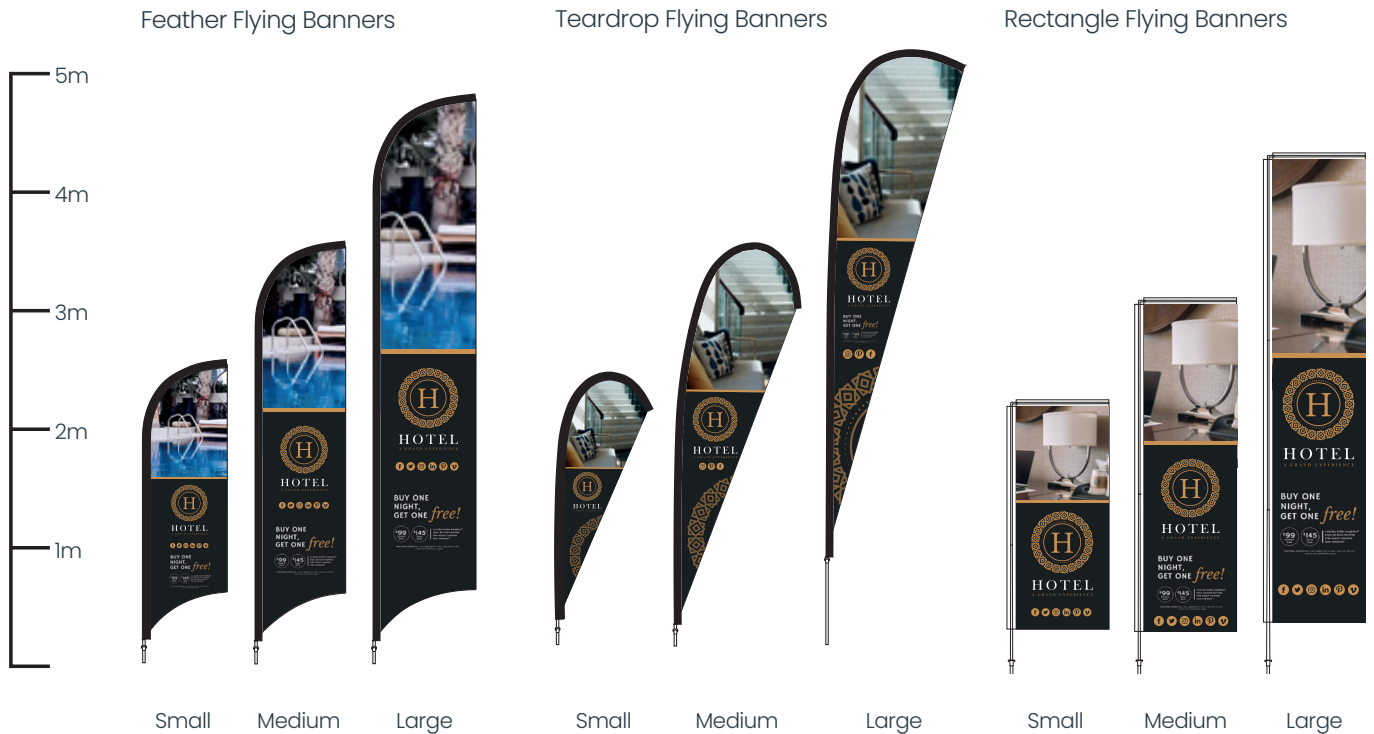

Teardrop flags generally last longer than Feather flags as the banner fabric is held in tension and experiences less movement.

Whichever style you choose we recommend taking them in overnight and avoid use in strong winds (i.e. 24+ mph wind speeds/Beaufort scale 6). Failure to do so will significantly shorten the lifespan of the product.

* Flag templates available on request, if own flag production preferred.

A choice of 3 shapes and 3 sizes.

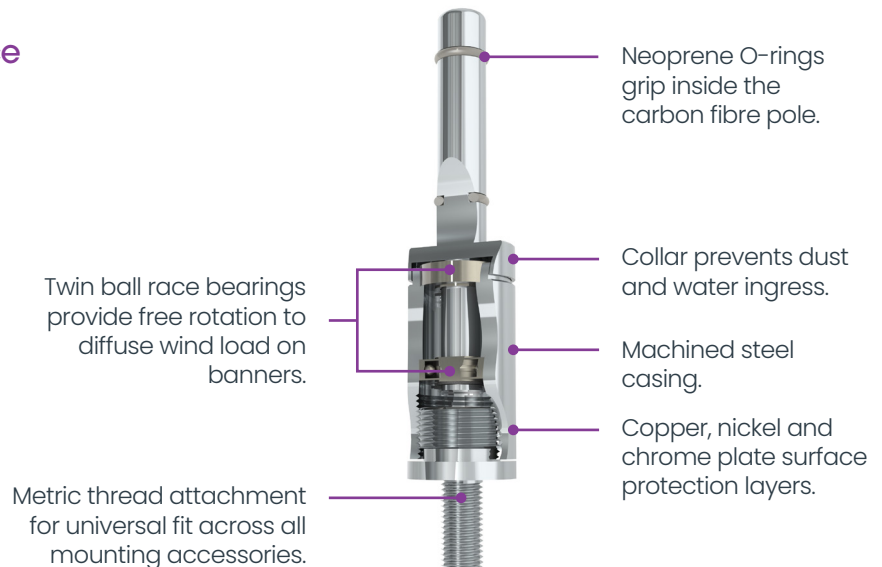

Leading Quality and Performance

Friction-Free Bearing Spindle

Our intelligently designed and engineered steel bearing spindle features in all our outdoor base and mounting bracket solutions (see page 55)

Friction-free rotation allows the flag to easily align to the wind, minimising stress and optimising flag visibility, performance and life-span.

Carbon Composite Banner Poles

Our light-weight, high-strength, sectional poles come with a 3 year manufacturer's warranty. They are stronger and more stress/gust resistant than any aluminium pole offering.

Reuse for years with replacement flags as required.

Flag Materials

There is a choice of standard 110gsm close-weave or 115gsm air-mesh polyester textiles, both offering an excellent combination of strength and image vibrancy.

Small holes in air-mesh allows some air to pass through the fabric thus reducing wind fatigue on the flag. This makes it a good choice for windy situations, particularly in combination with the elasticated pole sleeve.

Recycled 'rPET' textile available at additional cost. Minimum order quantities may apply subject to confirmation at time of enquiry.

Sublimation Printing

All flying banner flags are printed by a dye-sublimation process which uses special inks and a post-print heating process to 'fix' the ink into the fabric, making it resilient and washable as well as maximising the mirror image show-through on the reverse.

Flag Pole Sleeves

The majority of our flags are produced with printed, non-elasticated wrap-around pole sleeves, providing maximum possible print area.

When extra durability is required there is the option of a reinforced black or white elasticated sleeve. This would be recommended for exposed or unattended locations, such as roadside and 24/7 retail sites where the flag may not be taken in overnight.

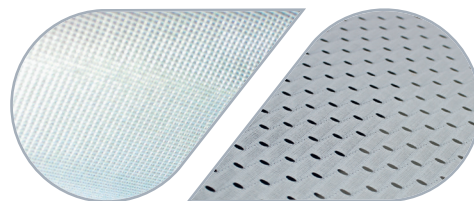

Finishing

To complete the attention to detail all Flying Banners come with draw-string tethers to adjust tensioning, double-stitched hems and reinforced pole sleeve ends for optimum flag life, and a black canvas carry bag to store pole, flag and ground spike when not in use.

Mounting Accessories For Flying Banners

Tank Base

Second tank.

Fully Recyclable

Wheel Base

Fully Recyclable

Conversion kit for small or medium flags on medium or large poles provides flag clearance above vehicle – see ground clearance in table opposite:

- Purpose designed water or sand fillable black HDPE base with our leading low friction bearing spindle for all flag sizes.
- Far superior to alternative parasol base offerings.
- 14 litre capacity, for water or kiln-dried sand.
- Designed for ease of handling even when full – satisfies manual handling guidelines.
- Stackable design – second tank (part FBSMTK) recommended for large flags outdoors. Provides up to 40kgs of ballast but remains easy and safe to carry in 2 parts.
- Screw cap for ease of filling.

Item	O/A Dimensions (w x h x d mm)	Weight (kg)			Order Code
		Empty	Water-filled	Sand-filled	
Tank Base + Spindle	455 x 245 x 255	2.0	15	23.0	FBSMTK+TKBRG
Tank Base only	455 x 110 x 455	1.2	14.2	22.2	FBSMTK
Spindle only	100 x 132 x 100	0.8	–	–	TKBRG

- Black powder coated steel feet with low friction bearing spindle (total weight 4kg).
- Folding design for easy storage.
- V shape allows base to be wedged under any parked vehicle wheel (or driven onto).
- Suitable for all tyre sizes.

Item	Flag and Pole Compatibility	Typical Ground Clearance (m)	Order Code
Wheel Base	See below	–	FBWHEEL(2)
Conversion kit 1	Small Feather flag + medium pole	1.3	FBCONKIT1
Conversion kit 2	Small Teardrop flag + medium pole	1.8	FBCONKIT2
	Small Rectangle flag + medium pole	1.3	
	Medium Feather flag + large pole	1.4	
	Medium Teardrop flag + large pole	1.8	
Conversion kit 3	Medium Rectangle flag + large pole	1.6	FBCONKIT3

Note: conversion kits are suitable for use with all Flying Banner bases.

Bracket Mount Bearing Spindles (Angled, Vertical, Horizontal)

- Friction-free bearing spindle on a choice of 3 different fixing plates for vertical or horizontal mounting.
- Fixings not supplied – it is up to the installer to choose the appropriate fixing for the situation.
- Suitable for parapet walls, posts, fencing etc.

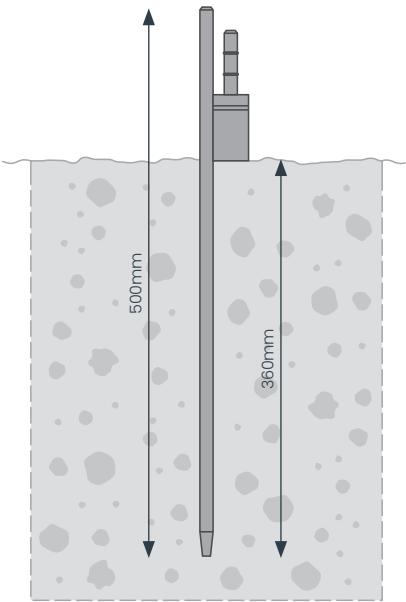

Item	Weight (kg)	Order Code
Angled	0.83	FB25DGWALBRG
Vertical	0.85	FBVERTWALBRG
Horizontal	0.7	FBCONCBRG

Note: if considering an angled mount for a shop or building frontage then we recommend use of small Teardrop Flying Banners only – to avoid flag damage against the wall in the event of wind rotation.

Ground Spike

Ground Spike Diagram

- Steel spike for soft ground or sand.
- Bearing spindle for smooth flag rotation.
- Male pole connections with O-rings provide a perfect and secure fit as well as offering free rotation to deflect wind loading.

Weight (kg)	Order Code
1.2	FBSPIKE(2)

Concrete Base

Recyclable: steel spindle

- Heavy duty 67kg base solution – ideal for semi-permanent positioning.
- High quality low friction bearing spindle for smooth flag rotation.
- Spindle assembly comes with 4 bolts and spanner (concrete base pre-threaded).
- Lever points provided for ease of movement.
- Due to weight of base, pallet delivery is necessary.

Item	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
Concrete base with Bearing Spindle	600 (dia.) x 100 (h)	67	FBCONC + FBCONCBRG

Base Plate

Recyclable: steel base plate, steel spindle

- Stylish low profile base for interior use only eg. exhibitions, retail, malls, showrooms, sport and leisure venues.
- Matt black non reflective base finish.
- Integral spigot grip-feature holds pole/flag position and desired best line of view.
- Low profile – Base Plate sits just 9mm above floor.
- 3mm thick foam foot pads protect floor and ease lifting.
- 2 sizes: Small Base Plate for all small flags and Large Base Plate for all medium and large flags.
- Allen Key tool included to fix spigot to base.

Item	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
Small Base Plate	300 x 300 x 9 (plate 6mm thick)	4.2	FBBASEPLATESM
Large Base Plate	400 x 400 x 9 (plate 6mm thick)	7.3	FBBASEPLATELG

Cross Base and Water Bag

Recyclable: steel cross base, steel spindle

- A traditional Flying Banner base solution for hard ground indoors or out.
- Compact packing can make this a popular choice when transport space to an event is at a premium.
- Powder coated grey steel cross base, with high quality low friction bearing spindle for smooth flag rotation.
- Holes at end of feet for pegging to soft ground if required (pegs not supplied).
- Optional water bag for added stability.

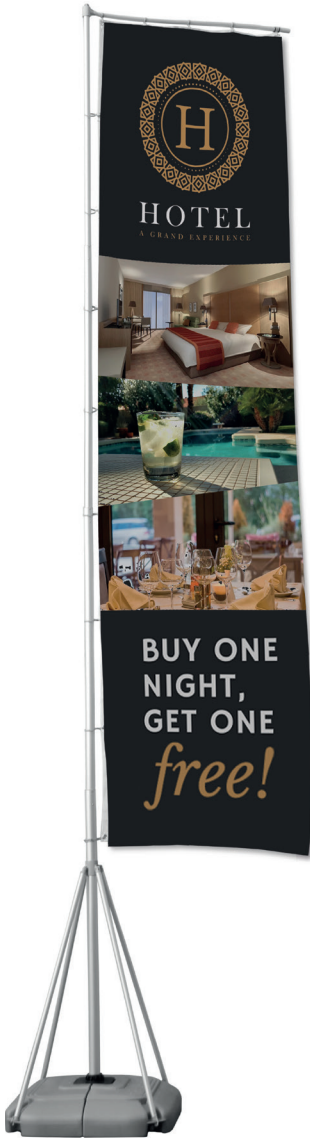

Item	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
Cross Base	Length: 840 Width: 60	4	FBBASE(2)
Water Bag	540 diameter	Empty: 0.4 Full: 10.6	FBBAG(H)

Giant Pole

Instruction Video

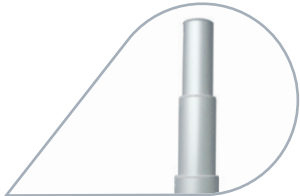

5.4m high attention grabbing outdoor display.

- High impact display for 1.1 x 4.1m textile flag.
- Ideal for forecourts, shopping centres, exhibitions and events.
- 2-part water fillable polyethylene base for optimum stability.
- Telescopic aluminium pole with silver anodised finish (54mm diameter at base).
- Printed flags available to order (single and double sided).
- Printed by dye sublimation – see page 191 for more details.
- Pole and base carry bags included.

Double Sided Flags

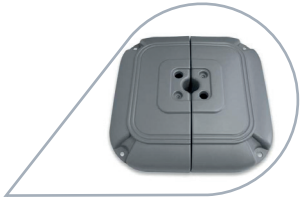

A twin layer of standard polyester fabric with central liner allows different designs on each side and a good level of opacity. Due to the added weight, double sided flags will not flutter in the wind in the same way as standard flags.

Telescopic pole.

360° rotating flag arm.

2 part base for ease of transportation.

Water fillable base with clip-in leg fixings.

Item	O/A Dimensions (w x h x d mm)	Weight (kg) Empty/Full	Availability	Order Code

Adfresco® Café Barrier

Patent No. 2472843

Advertise and manage space simultaneously.

Manufactured to our patented design and quality standards, the Adfresco® Café Barrier range combines style, market leading features and performance at an attractive price.

In a choice of styles, sizes and finishes it includes the lower specification Adfresco® LT pole and base to cater for the tighter budget or for indoor/sheltered outdoor use.

Stylish, strong and effective – Adfresco® Café Barriers create the perfect space for your customers and brand. Available in polished Stainless Steel or Satin Black.

Stainless Steel showing lower cross rail and sliding ring tether option.

Cross Rail Option
Instruction Video

Bungee Option
Instruction Video

- Premium 3 series polished stainless steel for optimum outdoor life and scratch resistance or tough satin black pole and base for an alternative look.
- 13.5kg x 360mm diameter base provides excellent stability.
- Rubber edged base prevents damage to floors and gives the option to roll rather than lift.
- Option of bottom cross rail for full Equality Act compliance or lower cost bungee tether.
- Flat packed for easy storage and transport.
- Easy to assemble. Spanner included.
- Stainless steel cross rails.
- Choice of banner sizes and materials.

Satin black pole.

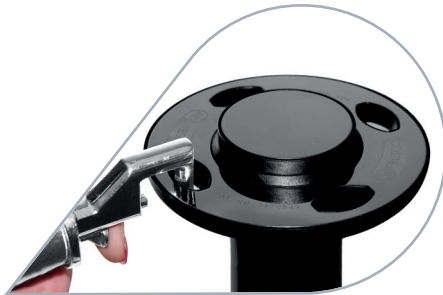

Lower cost LT Base and Pole.

- Lower cost and lower performance hardware option.
- 2 series polished stainless steel pole and base.
- Lighter 10.3kg x 360mm diameter base.
- Bottom bungee tether option only.
- Easy to assemble. Spanner included.
- Same choice of high quality banners.

Unique features of Adfresco® Café Barrier:

Designed for easy end of life recycling.

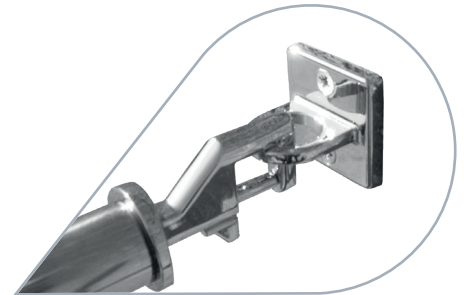

Top/Clip

- Sleek top designed for comfortable lifting, comes with quick release cross rails.
- Supplied with a protective cover to prevent damage in transit.

Adfresco® Sliding Ring

- Unique patented smooth-glide ring allows banner to flex and eliminates wind damage associated with traditional designs.
- Not available with LT.

Chrome Plated Eye Plate

- For screw fixing to vertical wall or raised planter.

Adfresco® Base

- Concrete filled 13.5kg rubber edged base provides optimum stability, prevents damage to floors and gives the option to roll rather than lift.

Bottom Cross Rail

- Optional rigid lower cross rail provides audible tap for visually impaired (Equality Act Compliant).
- Not available with LT.

Bungee
Wall Hook

Bungee Connector

- Optional lower bungee connector holds banner taut – a cost effective alternative to a bottom cross rail.
- Prevents over stretching of banner.

Recyclable: stainless steel stanchion, base covers, stainless steel cross bars

Adfresco® Cafe Barrier - Selection Tool

Adfresco® allows you to individually select the elements to create your perfect Café Barrier – all with market leading features and benefits.

Choose your poles & bases:

Premium Adfresco® stainless steel

Optimum outdoor life and scratch resistance.

Premium Adfresco® satin black

A popular alternative to stainless steel.

Budget Adfresco® LT

Reduced specification. Stainless steel and lower bungee tether only.

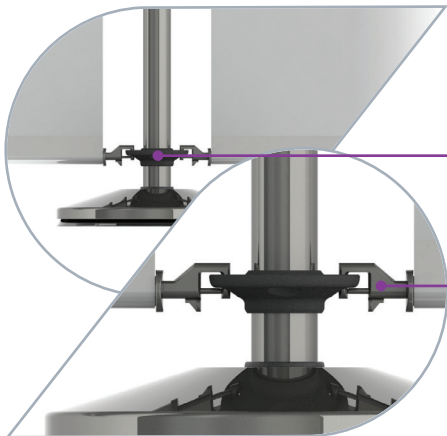

OR

OR

Choose your lower tethering method:

Double cross-rail option

Provides strength, tautness and Equality Act compliance.

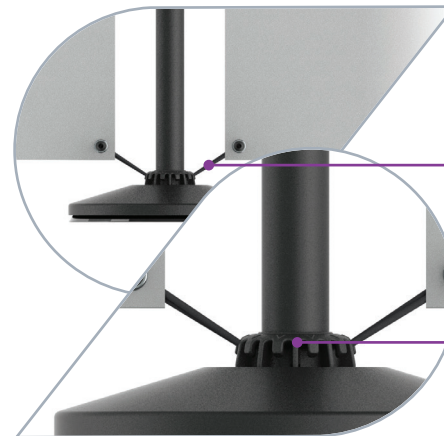

Sliding ring

Lower cross rail & clip

OR

Single cross rail and lower bungee option

Select the bungee pole connector and bungees instead of a second cross rail.

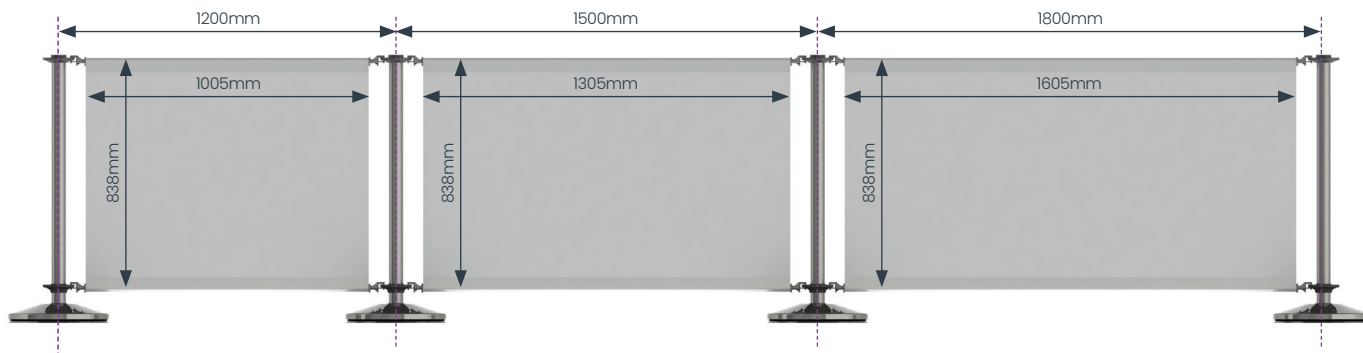

Bungee

Bungee connector

Choose your banner width:

For more exposed locations, such as seafront cafés, shorter banner widths work best.

Choose your banner material:

Light Block PVC 750gsm

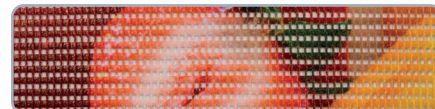

Reinforced and totally opaque, this is perfect for double sided print, long outdoor life and vibrant colour reproduction. The easy wipe clean surface makes it ideal for front of house food and drink environments.

Polyester Canvas 450gsm

This close weave 100% polyester fabric has all the appearance, weight and feel of a traditional canvas yet, unlike cotton based canvases, it is cost effective and will not rot or stain. Available full colour printed to one side with the option of white or single colour on the reverse.

Mesh PVC 380gsm

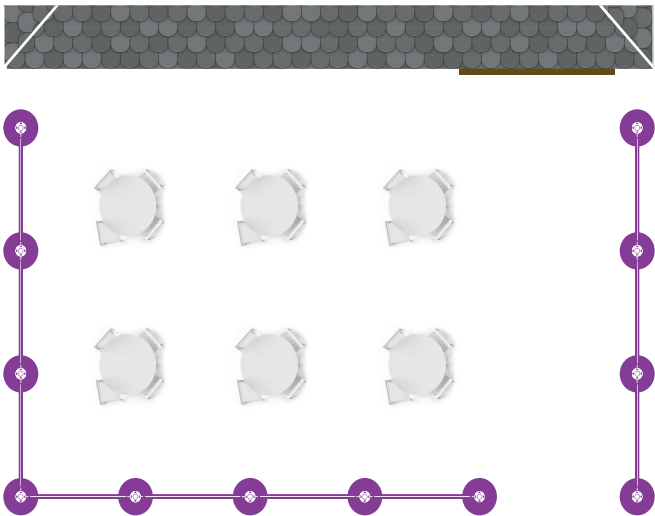

Provides a semi transparent finish and allows some air to pass through making it ideal for windy locations & subtle branding. Full colour print is available on one side (white on reverse).

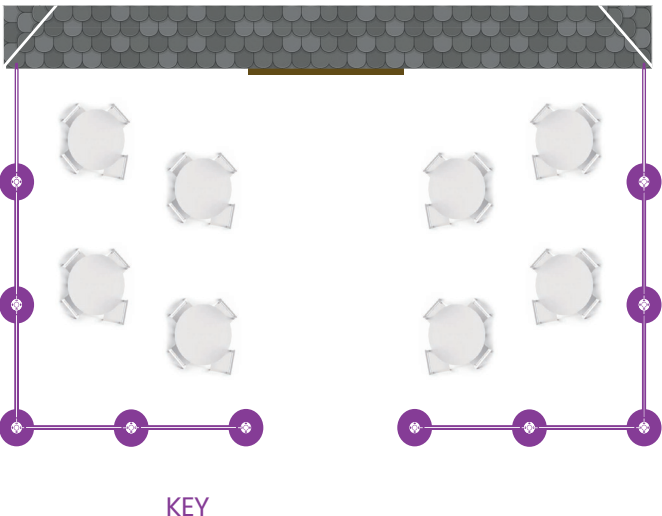

All of our banners are suitable for outdoor use. To maintain best appearance, occasionally sponge down with warm soapy water. Use ratio: 30ml liquid soap / 10 litres water.

Adfresco® Example Layout

1. 12 poles/bases & 10 cross rails.

2. 10 poles/bases, 2 wall hooks/eye plates & 10 cross rails.

Classic Garden Parasol

UK Design Registration No. 6083532

The introduction of our Classic Garden Parasol, sometimes referred to as a Pub Parasol or Beach Umbrella, marked a return of the famous Hoyland Fox brand to the UK market, a name reflecting over 175 years of dedication to the manufacture of high quality umbrella frames.

Tough, rot and weather resistant polyester fabric canopy.

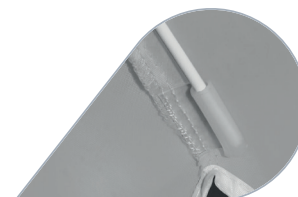

Telescopic 22/25mm diameter steel pole with simple cam-clamp lever to adjust height.

No moving steel or metal parts – free of corrosion risk and moving parts not functioning properly.

Optional 20 litre white water-fillable base.

Top finial.

Rib tip retainer, stitching detail and valance hem.

Cam-clamp lever.

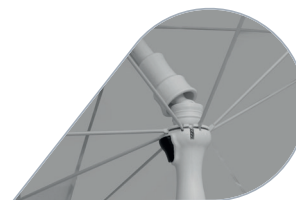

Ergonomic runner hub and release button.

Ball and socket joint for 360 degree tilt direction – position the canopy to suit any sun angle without having to rotate the whole parasol.

Slider revealing ball and socket joint.

360 degree tilt direction.

Combined with a high specification canopy fabric and our printing expertise, the result is a unique parasol product that raises the bar in terms of quality and value for money.

- 1.8m (max open) diameter, 8k (8 rib) steel wire Hoyland Fox frame.
- 3.8mm diameter high tensile, hardened and tempered, carbon spring steel ribs and stretchers.
- Telescopic 22/25mm diameter steel pole with simple cam-clamp lever to adjust height.
- All steelwork zinc phosphate pre-treated before satin white polyester powder coating.
- Unique tilt feature offering shade wherever sun is angled.
- Sliding tilt protector (slider) locks canopy in horizontal position and stops unwanted tilting due to wind or tampering.
- 180gsm PA (acrylic) coated polyester fabric canopy – tough, rot and weather resistant.
- Vibrant printing from single colour repeat logos to one full colour design covering the whole canopy – minimum 1 year outdoor life in UK.
- Optional 20 litre white PE water-fillable base – alternatively fill with kiln-dried sand for additional weight.
- No minimum order quantity.

Signtac® Self-Adhesive Floor Graphics

A professional range of certified, fire and slip-rated floor-graphic products to suit a variety of indoor and outdoor applications. No minimum order quantity.

Range overview (see table opposite for full details and comparison):

Signtac® 6 Indoor (PVC)

- Short term (up to 6 months durability), indoor only.
- Specifically developed for simple tool-free installation.
- Clean and quick removal within 6 months.

Signtac® 6 Indoor (PET)

- Short term (up to 6 month durability), PVC free, indoor only.
- Easy to apply and dimensionally stable.
- Repositionable whilst installing.

Signtac® 12 Indoor

- 2-part laminated for longer term (up to 12 months), indoor only.
- Removable, non-damaging adhesive.
- Ideal for mid to heavy foot traffic areas.

Signtac® 12 Outdoor SS

- 2-part laminated for longer term (up to 12 months), outdoor or indoor.
- Aggressive adhesive suitable for low-energy surfaces and ideal for smooth concrete outdoors.

Signtac® 12 Outdoor RS

- Longer term (up to 12 months), outdoor.
- For rough surfaces such as brick, concrete, asphalt, etc.
- Easy to apply, does not shrink and 100% recyclable.

Standard shapes and sizes:

Circles – 100mm, 200mm and 300mm dia.

Square – 100mm, 200mm and 300mm sq.

Triangles – 100mm, 200mm and 300mm sides.

Non-standard shapes and sizes:

Cut to shape within standard poster sizes A4, A3, A2, A1 and A0 and within 100/200/300mm squares.

Note – for optimum adhesion and safety, sharp corners and intricate cut detail in designs should be avoided.

Outdoor (Indoor) Wall/Window Mounted

We have some excellent secondary signage, chalkboard and poster display solutions available for wall or window mounting with weather resistant properties suitable for outdoor use.

Projecting 'flag' or 'bus-stop' advertising, to attract attention at eye-level and above, is available in the form of permanent Projecting Flange Signs, or, as more temporary wall or window-mounted Display Flags that can be taken in at night or when the premises are closed. They are designed to provide elevated visibility and are a good alternative to a pavement sign when there isn't space on the pavement, or of course to complement a pavement sign that is designed to catch the eye at street level.

Our Poster Frames, Noticeboards and Menu Cases range includes low voltage LED illuminated options. It also includes a world beating range of Snapframes, the widely popular front opening aluminium poster frame that wins on price and functionality. As significant developers and manufacturers of the Snapframe since our first frame designs in 1990 we have been instrumental in bringing refinement, value engineering and supplementary patented innovation to the market ever since.

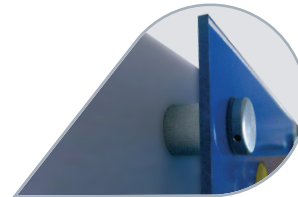

Dealer/Stockist Signs

Permanent brand presence at dealers and stockists.

Permanent brand signage at a stockist or dealers premises is a win-win, free advertising for the brand whilst the 'premium' brand endorsement will draw customers to the stockist. Long lasting, bold, vibrant print is the order of the day and that's our business!

- Premium options in aluminium, acrylic, polycarbonate or ACM.
- Screen print option and/or varnish over-print for extended outdoor life.
- Can be any size or shape pre-drilled for wall fixing.
- Stand-off fixing option for added prestige.
- Low-cost shorter outdoor life options in foam PVC or polypropylene ('Correx') – ideal for estate agent boards.
- No minimum order quantity.

Optional stand-off sign fixings.

Recyclable: panel material dependant

When it comes to standing out at the point of purchase the combination of material choice, shape and cool printing effects can make a real difference.

Flavour/Range Boards

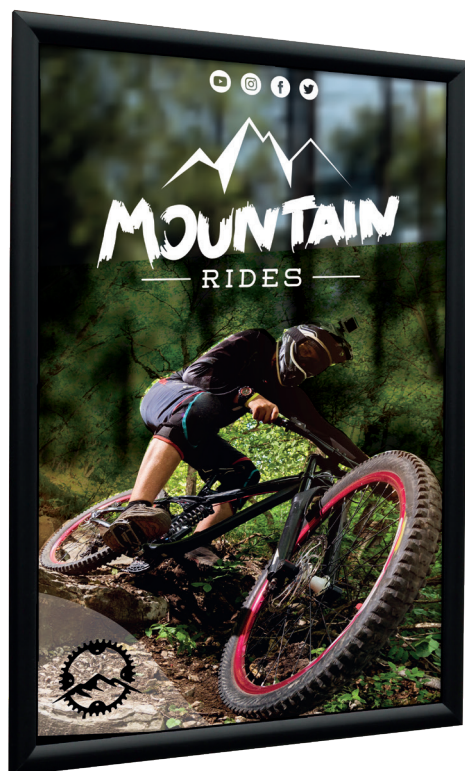

- Printed steel wall panel with set of interchangeable magnetic flavour labels.
- High promotional and functional value at the point of sale.
- Replacement magnetic labels can be purchased separately at a later date if required.

Snapframes (overview)

Anti-glare cover sheet included.

All our Snapframes feature:

- Easy snap-open/snap-shut poster change.
- Built-in security – when closed all fixings and opening method are hidden from view.
- UV stable poster cover sheet – will not turn brown and protects poster from fade in sunlight.
- Anti-glare poster cover sheet – maintains message visibility under bright lighting.
- Pre-drilled and individually boxed with screws and wall plugs.
- Suitable for outdoor use.

Note: wider frame profiles do a better job of keeping the poster cover and poster secure in windy weather than smaller frame profiles.

Express make-to-order service from a choice of 12 stock finishes

- No minimum order quantity.
- Fast lead times – typically, 1-10 frames (3-5 days), 11-25 frames (5-7 days).
- Custom sizes from as small as 210 x 210mm.
- Oversize frames (>1.5m²) may require collecting by customer if too large for our parcel delivery provider or for palletising.
- Choose from the following stock colours and finishes:

Fully Recyclable

Easy to insert and change poster.

Opens via simple Allen key operation.

Sequentially closing sides.

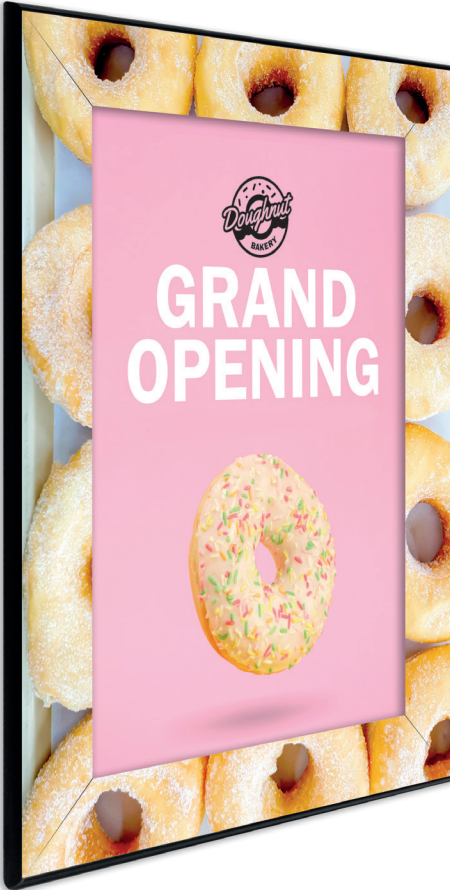

Anti-glare cover sheet included.

Frameworkz

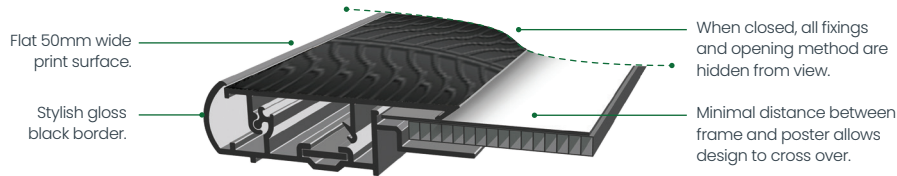

Patent No. 2464696

Unlike any other poster frames available, Frameworkz Snapframes can be digitally printed with almost any design.

From logos and text to images and patterns, the choice is yours and the opportunities are truly endless.

- Front opening aluminium snapframes for quick and easy poster change.
- Suitable for external use (2-3 years in temperate climates).
- Minimal distance between frame and poster allows design to cross over.
- Anti-glare 500 micron PET poster cover sheet as standard or optional 750 micron gloss clear polycarbonate at additional cost.
- Pre-drilled for wall mounting.
- Available in any frame size from A3 to 40" x 60".
- Made to order (no minimum order quantity).

 **Recyclable:** aluminium frames, PET poster cover sheet, mechanical fixings

Poster Size	Display Area (mm)	O/A Dimensions (w x h x d mm)	Profile Depth (mm)
Any size from A3 to 40" x 60"	Poster -31.5	Poster +79	15

Due to frame cutting and artwork tolerances of +/- 1mm, a visible step across the mitred corners is sometimes unavoidable. Designs featuring straight lines across the corners will be particularly prone to this.

Slimlok Poster Case

Stylish poster display cases with lockable doors.

Express made to order stock colours (below) have no minimum order quantity

- 52 x 30mm profile durable aluminium frame.
- Vandal resistant 1.5mm polycarbonate glazing panel
- Internal clips hold posters securely in place and allows for quick and easy poster change.
- Ideal for outdoor use.
- Door stays supplied as standard on stock units at A1 size or larger.
- A1 size and larger have two locks.
- Other sizes are available, made to order, with or without stays (no minimum order quantity).

Each poster case supplied with a set of keys.

Door stays on larger sizes as standard.

Internal clips hold posters securely in place.

Hi-Sight

Thanks to its unique pull down poster cartridge, the Hi-Sight has many advantages over traditional poster frames.

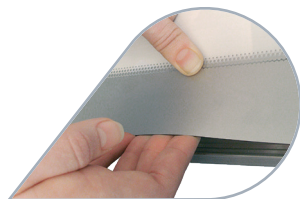

Registered Design No. 000879876

Instruction Video

- Can be mounted up to 3 times higher than a regular frame.
- Poster change is quicker, easier and safer – no need to stretch or use ladders.
- Reduced risk of tampering and vandalism.
- Hard wearing aluminium frame.
- Fixed polycarbonate cover with magnetic seals, virtually no risk of poster loss.
- Excellent weather resistance.
- Hidden pre-drilled holes, ready for wall mounting.
- Available with custom coloured borders (no minimum order quantity).

Ideal for out of town retailers. Hi-Sight maximises visibility of store front promotions – vital in the drive for greater awareness and increased sales.

Apply finger pressure just above border and lift.

Poster cover security fixings.

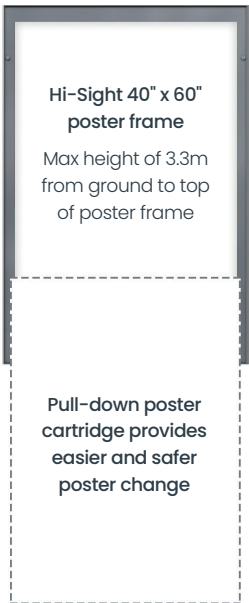

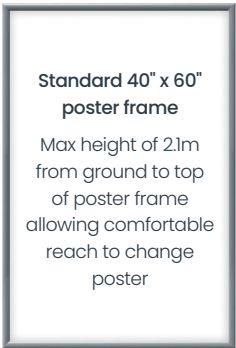

Traditional frames – low visibility.

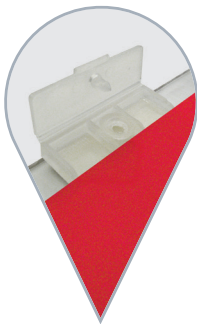

Hi-Sight – high visibility!

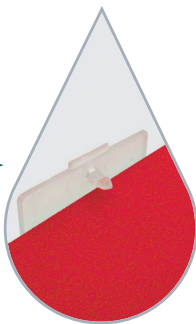

Pull down poster cartridge for safe, quick and easy poster change.

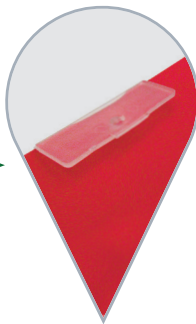

Posters are held in place by 4 pinch holders on the top of the cartridge.

Open poster-pinch mounts to add or change posters.

Place poster within poster-pinch opening.

Close poster-pinch mounts to pierce and grip poster.

Recyclable: aluminium frames, polycarbonate poster cover

PVC Banner

Semi-permanent large format outdoor promotion.

- Any size up to 20m x 3m.
- Choice of 3 stock materials including a light-block for double-sided print.
- Folded welded hems provide a double strength perimeter for optimal wind load/tear resistance.
- Corrosion-free metal eyelets.
- Supplied with 300mm translucent white nylon cable ties- extremely secure, quick and easy to use to achieve the best banner appearance.
- Individually poly-bagged for protection during distribution.
- No minimum order quantity.
- See our Banner Frames opposite and on page 46.

Fully Recyclable

Front-Lit PVC 440gsm

Our most popular banner for single sided print only. Front-lit banners suit fence and wall-mounting locations.

Light Block PVC 440gsm

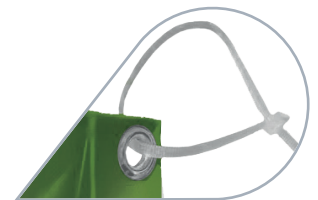

Our highest performing material, Light Block PVC provides excellent colour vibrancy and long lasting performance. Ideal for single or double sided print.

Mesh PVC 270/380gsm*

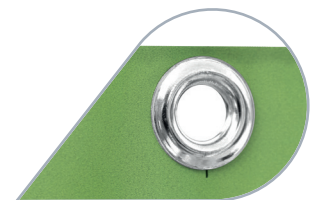

Perforations allow air to pass through and reduce wind loading, making it well-suited for windy locations eg. seafronts & site/event fencing.

*Subject to size/quantity.

All banners supplied with tie-wraps.

Silver finish metal eyelets.

Wall Banner Frame

Lightweight aluminium banner frame kit for wall mounting indoors or outside.

- 8x galvanised steel stand-off brackets for wall mounting.
- Aluminium 25 x 25mm frame tubes – low weight for handling and fitting.
- Fast push-fit assembly with simple installation.
- Low profile design – frame stands just 125mm forward of any mount surface.
- Self-adjusting bungee hooks hold eyeletted banners under tension.
- Bungees included.
- Recommended banner size: 2840 x 1090mm.

Wall fixing brackets.

Full bungee kit included.

Recyclable: aluminium tubes, wall brackets

Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
2840 x 1090	3000 x 1250 x 125	5	BANFRAMEWALL

Flange Signs

Low cost, high impact flat projecting signs, available in 3 standard sizes.

Standard shapes/sizes:

Rectangular

Round

Oval

Fully Recyclable

Shape	Display Area (w x h mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
Round	495 diameter	550 x 495 x 50	0.83	FLSR1.2
Oval	500 x 400	600 x 400 x 50	0.72	FLSO1.2
Rectangular	575 x 417	575 x 417 x 50	0.91	FLSS1.2

- Cost effective, double sided shop front advertising.
- Exceptional value with 5 plus years of outdoor life.
- 1.2mm aircraft grade aluminium panels with a gloss white polyester powder coated finish – ideal for vinyl application.
- Direct to surface printing available. No minimum order quantity.
- 50mm fixing flange, pre-drilled with round fixing holes as standard.

Custom shapes/sizes:

- Customised shape can enhance stand-out and brand recognition.
- Made to order – minimum order quantity 25.

Made To Order

Sucker Flags

Visible and versatile – inside or out.

Easily adjustable angle for any situation.

Single lever secures flag and allows quick release.

- Ideal for chillers, product displays, static vehicles or windows.
- True double-sided polyester flags (not mirror image on reverse) with black pole hem.
- Simply secures to smooth surfaces such as glass, plastic or metal.
- Fibre composite pole keeps flag taut and swivels in the wind.
- Adjustable angle.
- Quick and easy to change flags for new promotions.
- Kit includes pole, bracket and flag.
- Minimum order quantity 100.

Ways to display:

Perfect for chillers and display cases

Great for forecourts and showrooms.

Also ideal for use on shop frontages.

Made To Order

Item	Display Area (w x h mm)	Dimensions (mm)	Weight (kg)
Sucker Flag Kit (complete)	233 x 501	285 x 720	0.15

Standard Flag Kit

For wall mounting.

- Tapered socket ensures excellent pole grip and prevents loss of flags in windy conditions.
- Suitable for screw fixing to walls.
- Kit includes polypropylene bracket, PVC pole, finial and collar. Flag available separately.
- Plain 750gsm reinforced light-block PVC flags held in stock. Suitable for vinyl graphics.
- Marine grade polyester stitching for optimum flag life.
- Print service available (no minimum order quantity).
- Custom shaped flags available (minimum order quantity 25).

Bracket

Recyclable: polypropylene bracket, PVC pole, polypropylene collar and finial, PVC flag

Item	Dimensions (mm)	Weight (kg)	Order Code
Standard Flag Kit (bracket, pole, finial and collar)	Bracket: 50 (w) x 117 (h) Pole: 750 (length) x 19 (dia.)	0.2	FLKIT
Display Flag	430 x 355 x 560	0.2	FLAGTRADE

Noscrewz Flag Kit

Ideal for glass mounting.

Patent No. 2443417
Instruction Video

Recyclable: PVC/ASA bracket, PVC pole, polypropylene collar and finial, PVC flag

Item	Dimensions (mm)	Weight (kg)	Order Code
Noscrewz Flag Kit (bracket, pole, finial and collar)	Bracket: 90 (w) x 150 (h) Pole length: 150/300/450/600/750 Pole diameter: 19	0.4	NOSCREWZ2
Display Flag	430 x 355 x 560	0.2	FLAGTRADE

* Care is required if using Noscrewz for oversized (wider and/or taller) flags. Unless the pole is shortened (use of fewer pole sections during assembly) we would only recommend flags in our standard 750gsm reinforced light block PVC up to a maximum of 0.25m² (less than 200g in weight).

- Safe, tamper proof and secures on any smooth surface.
- Incredibly quick and easy to use, simply push onto surface and twist. No tools required.
- Kits include bracket, sectional pole offering variable length, collar and finial. Flag available separately.
- Suitable for internal and external use.
- Plain 750gsm reinforced light-block PVC flags held in stock. Suitable for vinyl graphics.
- Print service available (no minimum order quantity).
- Custom shaped flags available (minimum order quantity 25)*.

A simple twist creates a vacuum that locks the bracket in place.

Simply twist back and pull upper or lower tab to release bracket.

Teardrop Flying Banner (on Angled Wall Bracket)

A great way to pack a promotional punch at the store front if pavement or forecourt space is at a premium, or if you just want to do something different and impactful above head height.

- Small Teardrop Flying Banner in standard or airmesh polyester textile supported on a sectional carbon composite pole.
- 2m long flag and rotational movement for eye-catching long range outdoor promotion.
- Angled Bracket Mount Bearing Spindle offers friction-free flag rotation and secure flag retention, whilst being easy to detach the pole and flag when premises are closed.
- For additional product information see Flying Banners on page 48.

Item	Weight (kg)	Size (mm)	Order Code
Pole & Bag	1	-	FBTSM
Angled Bracket Mount Bearing Spindle	0.83	-	FB25DGWALBRG
Printed flag with wrap-around printed pole sleeve	-	771 x 2060	FBTSMBAN(SW)
Printed flag with reinforced elasticated black pole sleeve	-	800 x 1992	FBTSMBANBEH(SW)
Printed flag with reinforced elasticated white pole sleeve	-	800 x 1992	FBTSMBANWEH(SW)

Our Chalkboard Panels

The last thing customers want is a chalkboard that requires repainting regularly and warps and disintegrates if used outdoors. Sadly there are too many inferior products on the market that do just that – even when advertised for outdoor use!

Our high-quality board materials:

- Are maintenance-free and never need repainting.
- Are easy to clean with water and household cleaner.
- Have a weather and scratch resistant anti-glare surface.
- Are suitable for use with traditional chalk or Liquid Chalk Pens.
- Can be direct to surface printed.

The specially formulated melamine surface on our premium laminate materials means your chalkboards stay looking new for longer.

 Made To Order

Liquid Chalk Pens

- Pens are rainproof after just 1 hour yet erasable with a damp cloth.
- **Top tip** – Mr Muscle window is an excellent chalkpen cleaner.
- Assorted pack contains: red, green, white, yellow and blue.
- Superior colour vibrancy and outdoor durability shown from our independent outdoor tests.

Fully Recyclable

Stickers, Labels & Window Graphics

Made to measure stickers and decals that stand out.

- Self-adhesive or self-cling messaging or promotion on any smooth flat surface.
- All sizes and shapes.
- Long-life, indoor/outdoor, permanent/removable, tamper-resistant, clear/frosted.... the options are endless.
- We also offer security/one-way vision window graphics.
- No minimum order quantity.

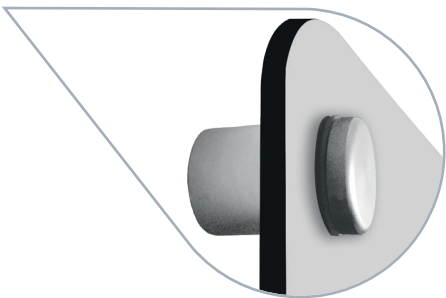

Stand-Off Sign Fixings

Add an architectural finish to any wall mounted sign panel.

As well as providing an attractive stand-off feature for any sign panel material, these fixings will accommodate an uneven wall surface, which could include any texture or render present on brick or stone wall.

- Allows air to move freely across both the front and rear of the sign panel.
- Eliminates condensation or dirt build-up from behind, essential for clear sign materials, ensuring the message is always visible.
- No apparent screw heads, concealed mounting method acts as an effective tamper deterrent.
- Holds sign panel thicknesses from 2mm to 12mm.
- Supplied in pairs in protective polythene enclosures.
- Screws and wall plugs are not included (since no two surfaces are ever the same, fixings should be selected to suit).
- Use 321 grade Stainless Steel stand-offs for long life outdoors.

Fully Recyclable

Stand-Off Sign Fixings as used in our Wall Mounted Information Displays.

Free-Standing/Floor Mounted

Whether you wish to enhance an in-store promotion, or guide or inform customers or visitors, free-standing portable displays which can be repositioned quickly for tactical advantage are essential pieces of marketing equipment.

This section not only includes stands in various styles and sizes for the display of posters, chalkboards and marketing literature but also a range of portable exhibition displays that are as much at home in a retail environment, showroom or reception area as they are at a conference or on a trade exhibition stand. These Roll-Ups, Banner Stands, Back-Drops and Promotional Counters do everything that is asked when it comes to displaying a beautifully printed graphic, all in an easy to transport form with carry case included.

For the floor itself we not only offer our impressive Signtac® self-adhesive floor graphics range (see page 66). For entrances, reception or counter check-outs the repositionable rubber backed promotional Feature Floor Mat is another great way to take advantage of this untapped advertising space whatever the flooring surface.

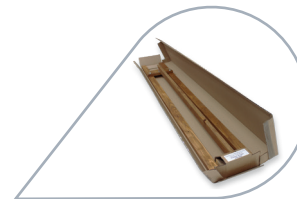

Easel by Woodworkz®

Woodworkz® is our joinery-quality brand of in-house manufactured real wood sign and display products.

We only use sustainable and certified timber sourced from approved sawmills and distributors.

- Simple, low-cost design offering the widest choice of display options on the market.
- Non-slip rubber feet protects floors and helps keep legs in position.
- Part assembled for packing and very quick to erect - no tools required.
- Stock 'Country Oak' finish. Other colours available to order (minimum order quantity 10).
- Easel Chalkboards available separately. See opposite.
- Also suitable for printed panels (max 13mm thick) or poster frames up to 800 x 1200mm/A0 in portrait or landscape orientation.
- Adjustable panel supports provide five height positions.
- Additional pair of panel supports available separately to display 2x Small Easel Chalkboards/A2 poster frames.

Flat packed and part assembled in individual box.

Fully Recyclable

Easel with alternative poster Snapframe.

Extra supports can be purchased separately.

2x small boards with extra set of supports.

Rear hinge detail.

Easel Chalkboards

- 6mm double-sided black edged melamine faced MDF in 3 stock sizes.
- Slightly rounded corners for safety.
- Suitable for use with traditional chalk or liquid chalk pens (see page 93).
- Direct to surface single or double sided print available (no minimum order quantity).
- Suitable for alternative in-door uses e.g. drilling and screw-fixing to walls.

Pole & Rope Barrier

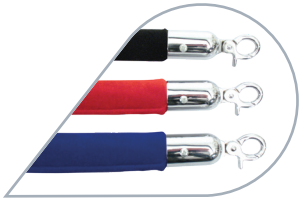

Recyclable: stainless steel stanchions, base covers

Choice of our Adfresco® Poles and Bases, with a range of rope styles and colours.

Please Note: These ropes are designed for a long, maintenance free life indoors. Outdoor use in sunlight or rain will cause the rope colour to fade and reduce the life of the product.

- The LT Pole and Base (shown) offers the lowest cost option and is ideal for internal use.
- Quick and easy to assemble – simple pictorial instructions and spanner included.
- Ropes feature easy clip in attachment – intuitive quick release operation.
- Flat packed for ease of distribution and storage.
- Polished brass finish also available. Minimum order quantity 100. Extended lead times apply.

Single sided front and back view.

Double sided.

Recyclable: aluminium clamp rails, pole and base, steel fasteners, optional PVC banner

Clamp rails make installing and removing banners quick and easy.

Double sided.

- Top and bottom aluminium clamp rails make installing and updating banners quick and easy.
- Double sided units with adjustable pole for final tensioning.
- 2m fixed banner height.
- Buy hardware only or complete with digitally printed 220 micron opaque matt white rigid PVC banner(s), (no minimum order quantity).
- Lightweight carry bag included with each unit.
- Durable black carry cases also available separately (see page 203).

Banner Materials:

- We recommend opaque matt white materials, such as 220 micron PVC or 125-150 micron polyester films for optimum print results and dimensional stability.

Double Sided

Eco Roll-Up Banner

A more traditional low-cost roll-up option with twin fold-out feet.

- 2 stock sizes – 800 and 850mm banner widths.
- Non-adjustable fixed height pole.
- Self-adhesive strips at top and bottom for easy banner installation.
- Silver anodised aluminium case, top rail, pole and folding feet.
- Complete with black padded carry case and full instructions.
- Buy hardware only or complete with digitally printed 220 micron opaque matt white rigid PVC banner (no minimum order quantity).

Banner Materials:

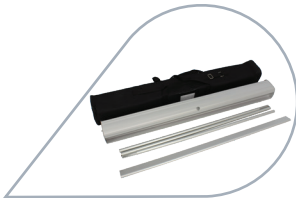

- We recommend smooth surface, lightweight rigid roll materials, such as 125 micron grey back polyester or 220 micron matt opaque PVC.
- Flexible, reinforced PVC banner materials have a textured surface and/or incorporate polymers which can react with adhesive tape so should be avoided.
- Do not use materials more than 300 micron thick.

Adhesive top rail bonds to rear top edge of banner.

Top-hat pole/top rail connection.

Black padded carry case included with each unit.

Banner Size (mm)	Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code (Single Unit)	Order Code (Pack of 6)
800 x 2100	800 x 1985	820 x 2050 x 365	3	ERB800(1)	ERB800(6)
850 x 2100	850 x 1985	870 x 2050 x 365	3.1	ERB850(1)	ERB850(6)

Please note:
The Eco Roll-Up Banner is designed and built to a market-leading price and the savings derived from the use of lightweight materials and high speed assembly methods to achieve this can result in minor marks or irregularities in the product finish.

Recyclable: aluminium cassette, top rail, folding feet, steel retractor spring

Budget Roll-Up Banner

The budget roll-up that has it all – style and performance at a super low price.

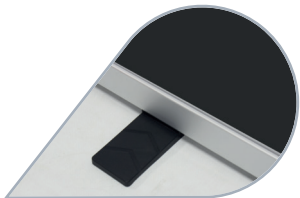

Instruction Video

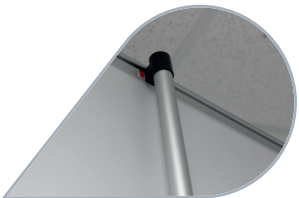

- 4 stock sizes – 600, 800, 850 and 1000mm banner widths.
- Soft styling – no sharp edges.
- Non-adjustable fixed height pole.
- Top clamp rail and bottom adhesive strip makes banner installation and update a simple process.
- Silver anodised aluminium case and top rail with moulded black fittings and fold-out foot.
- Complete with lightweight black carry case and full instructions.
- Buy hardware only or complete with digitally printed 220 micron opaque matt white rigid PVC banner (no minimum order quantity).
- 6 pack option for an even lower price.

Banner Materials:

- We recommend smooth surface, lightweight rigid roll materials, such as 125 micron grey back polyester or 220 micron matt opaque PVC.
- Do not use materials more than 300 micron thick.

Black centralised folding foot.

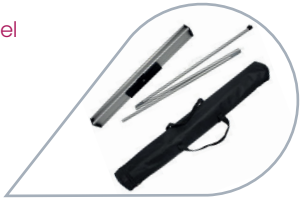

Top-hat pole/top rail connection.

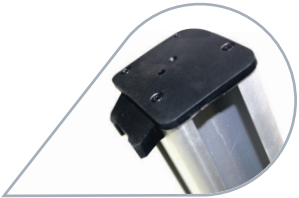

Recyclable: aluminium cassette, sectional pole, steel retractor spring, moulded end cap and stabilisers

Banner Size (mm)	Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code (Single Unit)	Order Code (Pack of 6)
600 x 2035	600 x 2000	620 x 2090 x 260	1.30	RB600(1)	RB600(6)
800 x 2035	800 x 2000	820 x 2090 x 260	1.84	RB800(1)	RB800(6)

1000 x 2035	1000 x 2000	1020 x 2090 x 260	2.15	RB1000(1)	RB1000(6)

Complete with lightweight black carry case.

Black moulded end cap detail and stabilisers.

Budget Banner Connectors

Innovative accessory kit to create a double-sided Budget Roll-Up Banner.

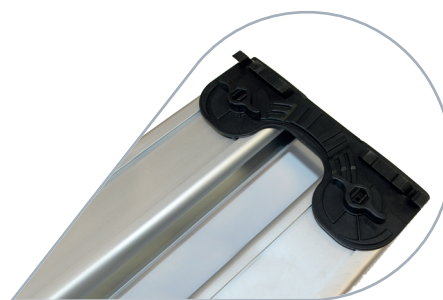

Instruction Video

- Connects two budget banners together easily and securely back to back to create a double sided banner display.
- The specially designed connector grippers slide into the cassette of the banner, then simply twist the handles to secure the connector to the units.
- Secure the two poles of the banner at the top by sliding the connecting joist over the pole caps.

Top connector slides over pole caps.

Easily connect two banners together, back to back.

Order Code

RBDSC

Rollsby

For all round value, premium roll-ups don't come any better than this.

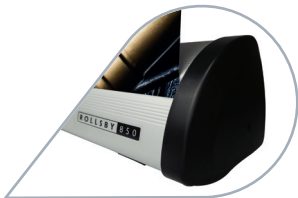

Premium padded carry case included with each unit, featuring separate pocket for pole and adjustable handle/shoulder strap.

- Single sided premium roll-up for interchangeable banners.
- 2 popular stock sizes – 800 and 850mm banner widths.
- Top clamp rail and bottom velcro strip makes banner installation and update a simple process.
- Two spare self-adhesive velcro strips supplied with each unit for future banner updates.
- Telescopic pole for 1550 – 1990mm height adjustment.
- Stylish silver anodised aluminium casing with black end caps and pole fittings – tough and hard wearing.
- Central stylised chrome foot.
- Premium padded carry case included with adjustable carry strap.
- Buy hardware only or complete with digitally printed 220 micron opaque matt white rigid PVC banner (no minimum order quantity).

Banner Materials:

- We recommend smooth surface, lightweight rigid roll materials, such as 125 micron grey back polyester or 220 micron matt opaque PVC.
- Do not use materials more than 300 micron thick.

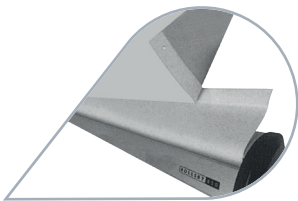

Hard wearing/protective end caps.

Stylish chrome foot.

Top clamp rail includes black push-fit end caps.

Velcro banner installation.

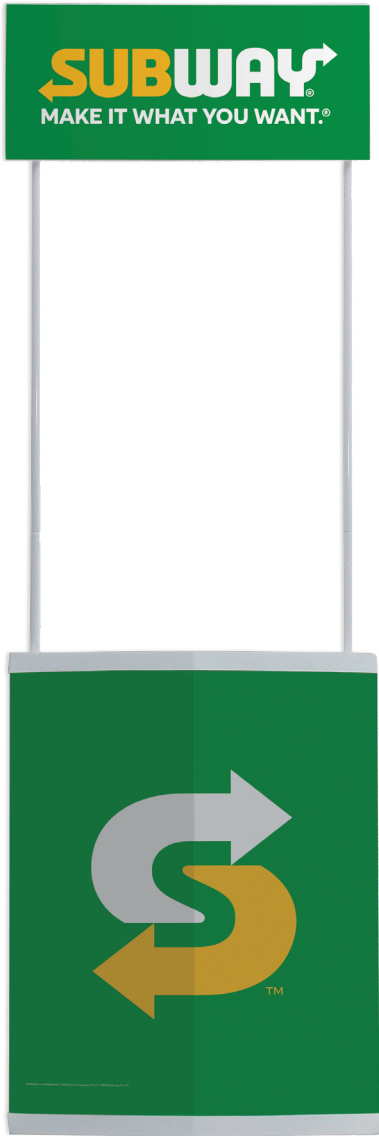

Recyclable: aluminium canister and pole, steel retractor spring, ABS end caps

Indoor Wall/Window Mounted

Snapframes and the other wall mounted Poster Display, Noticeboard and Menu Case solutions detailed in the outdoor products section of this brochure are perfectly suited for indoor use so make sure you check these out if you don't see what you're looking for.

The same goes for our frameless wall mounted Chalkboards on page 94. Whilst suitable for outdoors their primary use will be indoors, for the hospitality sector and in pubs, bars and cafes in particular. All our Chalkboards have the option to be printed for premium brand endorsement at the point of sale, including the new joinery-quality wood framed boards manufactured in our Woodworkz® production facility.

In this 'indoor only' section you will find some great display solutions for mounting to the inside of a window for outside viewing. Headlinerlite is an excellent repositionable solution for professional poster display, whilst our range of printed Open/Closed Signs offers low-cost brand promotion with built-in functionality for the retailer.

If you are interested in the Illuminated Poster Frames on offer then make sure to check out our stunning Printed Backlit Poster Films, sometimes referred to as Duratrans, on page 194.

Open/Closed Signs

Premium, Slider and Flipper design options, for internal glass mounting.

Premium

- Reverse printed polycarbonate sandwich construction with polypropylene open/closed slider and reversible/updatable opening time/promotional insert.
- Opening time sheets included – peel off and stick in the appropriate day/time slot.
- Adhesive backed for mounting to inside of glass.
- Minimum order quantity: 25

Slider

- 2 piece PVC sign.
- Slide sleeve along to change open/closed message.
- 400 x 105mm.
- High bond adhesive backing included for easy installation.
- No minimum order quantity.

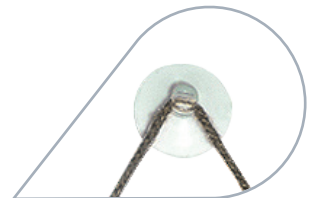

Flipper

- Printed 2 sides on 800 micron high gloss PVC.
- Flip from open on one side to show closed on reverse.
- Custom sizes and shapes available.
- Simple vacuum sucker allows repositioning in seconds.
- No minimum order quantity.

Custom shapes available.

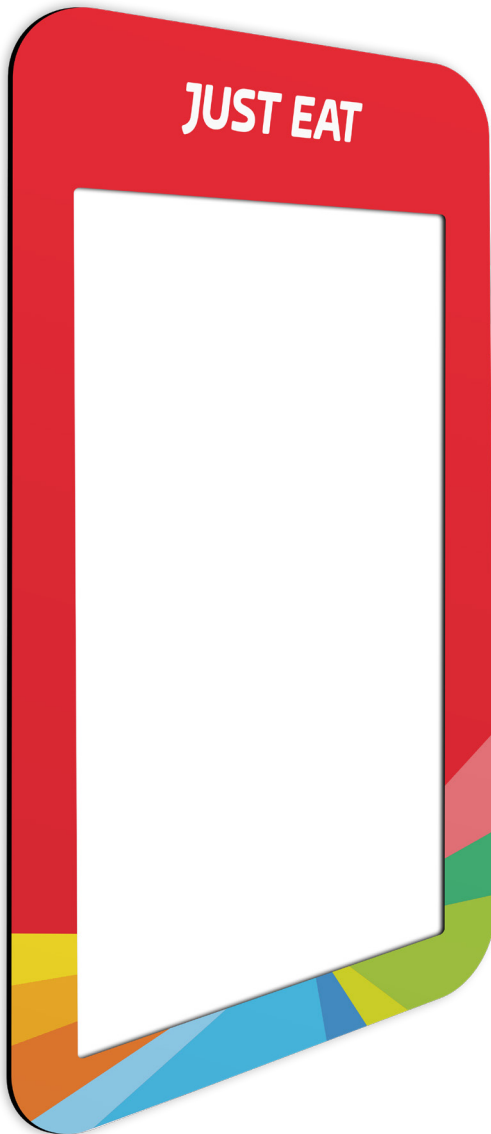

Vacuum sucker.

 Made To Order

Headliner

High visibility fixed poster display for windows.

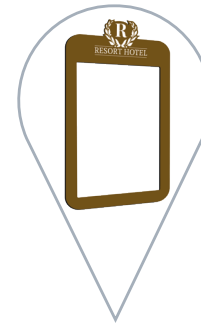

Instruction Video

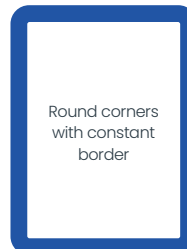

- Single or double-sided poster display.
- Mounted directly to inside of glass with pre-applied clear double sided tape.
- No need for messy Sellotape or Blu Tack.

Minimus

Patent No. 2531204

Minimalist design principles are behind Minimus, the world's simplest and lowest cost snapframe.

Fully Recyclable

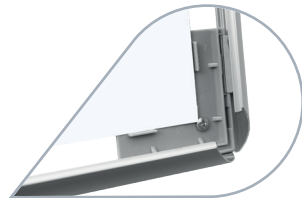

Poster Size	Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
A4	200 x 285	250 x 335	0.14	MINIMUSA4
A3	283 x 407	334 x 457	0.19	MINIMUSA3
A2	406 x 580	458 x 630	0.33	MINIMUSA2
A1	582 x 828	633 x 880	0.42	MINIMUSA1

An environmentally conscious snapframe solution!

- Once mounted to a smooth flat surface you wouldn't know Minimus is missing both rear aluminium frame and back panel.
- 25mm profile silver anodised frame in 4 stock sizes: A4, A3, A2 and A1.
- UV stable anti-glare poster cover sheet.
- Supplied with 4 screws/plugs and alternative self-adhesive pads for wall mounting.

Fix in place.

Patented corner mouldings with high tension serrated springs ensure strong grip on the poster.

Insert poster and cover sheet.

Close the sides.

Felt Showboard

High quality felt notice boards in a range of sizes and colours.

4x4 shown.

Recyclable: aluminium frame and back panel, PETG glazing panel, steel fittings

- For internal use in portrait or landscape format.
- Available in 4 sizes with red, blue, green or grey felt backing.
- Suitable for use with Velcro and pins.
- Silver anodised aluminium frames (profile width: 45mm) with PETG glazing panels and galvanised steel back panels.
- Lockable doors for security (1 lock on 4 x A4 size, 2 locks on all other sizes).
- Supplied complete with set of pins, screws, wall plugs and a pair of keys.

Best Buy LEDbox

Economy version of the Edgelit XT.

Similar performance as the Edgelit XT but with the following cost saving differences:

- No built-in on/off switch.
- Lighter frame profiles but external appearance virtually identical.
- 3.5m long power cable with 3-pin plug.
- Double-sided units include hanging points for portrait and landscape (XT must be specified before manufacture).
- CE certificate supplied with each unit.
- Custom sizes* and colours available made to order (no minimum order quantity).

2 x 2m wire cable hanging kit supplied with each double-sided LEDbox.

3m extension cable available (page 201).

Recyclable: aluminium snapframe perimeter frame, PET poster cover, acrylic light panel

Fully customisable combination poster and leaflet information boards.

Fully Recyclable

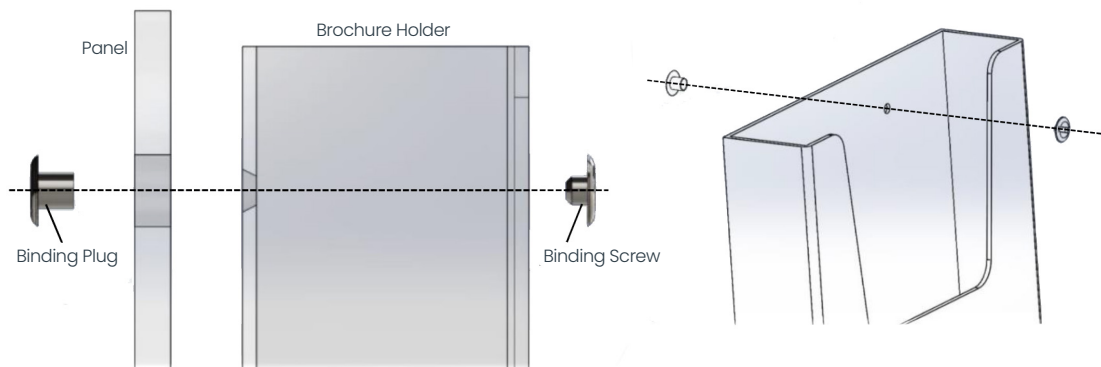

Stainless Steel
stand-off fixings.

Secure screw fasteners
for literature pockets.

Literature Pocket Fixing Guidance

Fastener mounting – literature holders can be replaced individually if required

Our high-quality offer is based on a choice of 3 back panel materials with a set of stainless steel stand-off fixings:

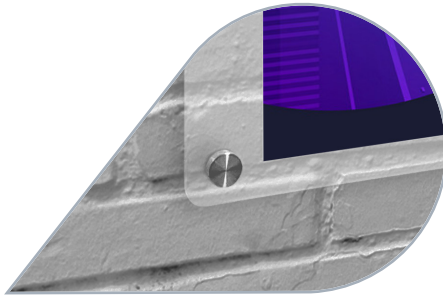

- 5mm Clear Acrylic – plus clear acrylic poster holders and/or clear injection moulded styrene brochure holders.
- 5mm Frosted Acrylic – plus clear acrylic poster holders and/or clear injection moulded styrene brochure holders.
- 3mm Satin White Aluminium Composite (ACM) – plus silver anodised Minimus snapframe poster holders and/or clear injection moulded styrene brochure holders.
- Displays are individually packed with poster frames pre-fitted and brochure holders packed separately for fitting on site (to avoid damage).
- Panels are pre-drilled for both brochure holder attachment and stand-off wall fixings.
- Branding areas to back panels if required.
- Poster holder options – A4, A3, A2 and A1.
- Brochure holder options – 1/3 A4, A5 and A4.
- Made to order (no minimum order quantity).

Individually select elements to create your perfect Wall Mounted Information Display.

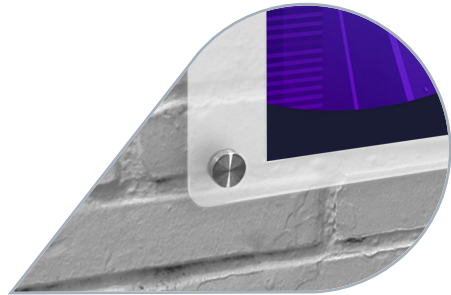

Choose your back panel material:

3mm satin white aluminium composite (ACM)

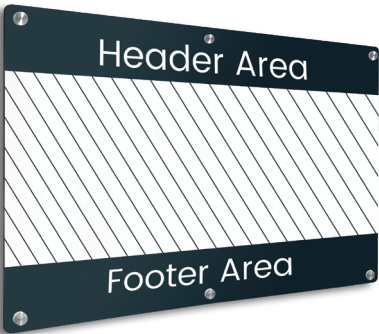

5mm clear acrylic

5mm frosted acrylic

Would you like any print on the back panel?

Header and/or footer area.

Print available anywhere on the back panel.

Choose your size and quantity of brochure holders:

A4

A5

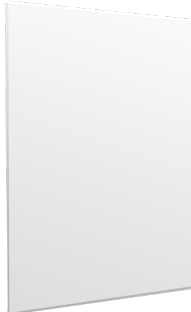

1/3 A4

Choose your size and quantity of poster holders:

For Aluminium Composite Material back panels:

A4, A3, A2 or A1 Minimus Snapframes.

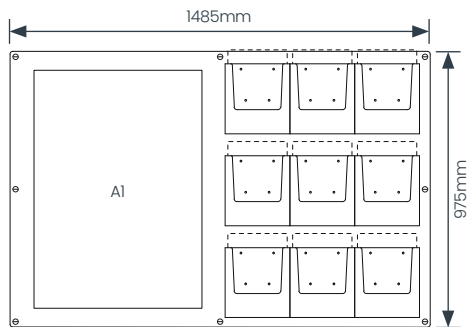

For Clear/Frosted Acrylic back panels:

A4, A3, A2 or A1 Acrylic Poster Holders.

Indoor Suspended/Hanging

For suspended window and ceiling displays our Poster/Banner Rails are an industry standard solution, and for window dressing in particular Poster Hanger would be our first choice due to its narrow visual profile and matching double-sided appearance.

Our three aluminium Banner Rail products grip the suspended graphic along the top and bottom edge and provide a professional hanging solution for a range of materials and are easy to update. Importantly they keep the graphic straight and hanging true, unlike unsupported card which has a tendency to warp and bend.

Whether floor or wall space is at a premium or not, ceiling suspended advertising makes a lot of sense, in larger stores in particular. Mounted well above head height suspended displays are guaranteed to draw attention to promotions and is where customers will naturally look for navigational guidance around the store.

For smaller stores there are printed Mobiles that offer eye-catching rotation from free movement of air in the store, and if you have lower level suspended ceilings with integrated lighting check out Freelight Plus – probably the lowest cost illuminated display available!

Poster Hanger

Perfect for paper, flexible banner materials and rigid plastics up to 1mm thick.

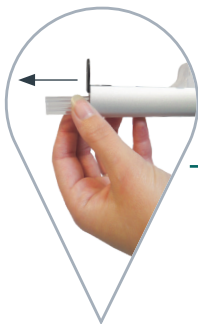

Adjustable hanging clips with key hole cut-outs for optional wall mounting.

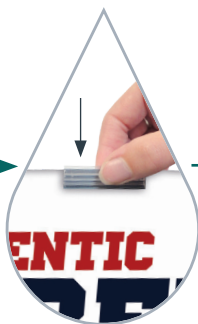

- Plastic grippers make it easy to insert and remove graphics.
- The favourite choice of retailers for window suspended posters.
- Silver anodised finish as standard, also available in any RAL colour (no minimum order quantity).
- Available in custom sizes made to order (minimum order quantity 25).

Each set consists of:

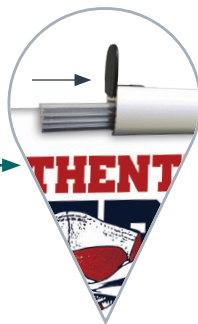

- 2 aluminium rails (slim 20mm wide) with end caps and poster/banner grippers (2-7 per rail depending on size).
- Adjustable hanging clips on top rail.

Remove grippers from rail.

Push onto poster.

Insert back into rail.

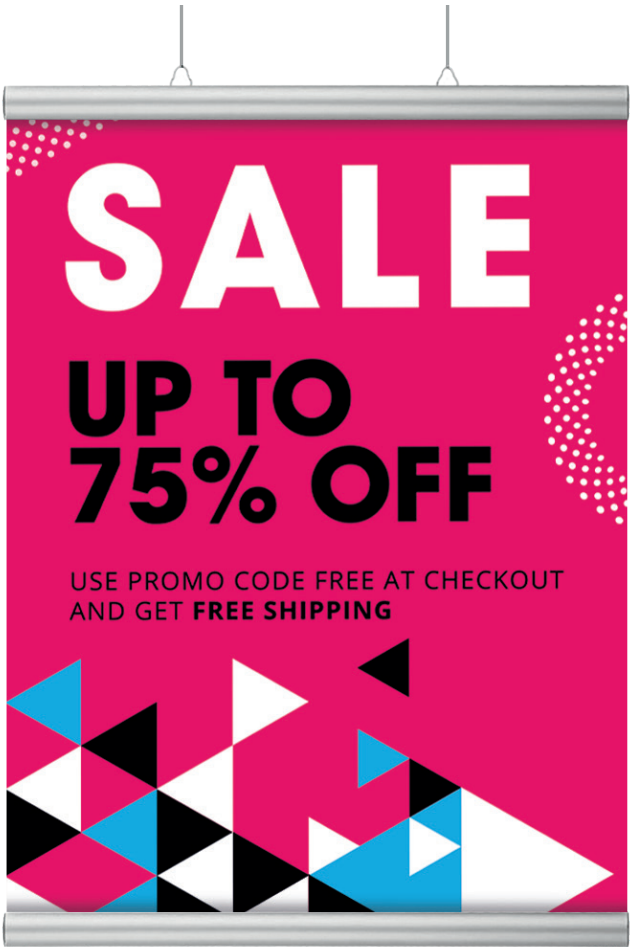

Recyclable: aluminium rails

Cable Suspended Snapframes

Poster display from floor to ceiling.

- Double sided poster display for floor to ceiling/wall mounting.
- Front opening 25mm profile snapframes for quick and easy poster change.
- Includes anti-glare poster cover sheet.
- Silver anodised finish as standard.
- Also available in any RAL colour (made to order, minimum order quantity 25).
- Cable sold per metre to meet individual height requirements.

2 stoppers required per frame.

Stopper grips cable at adjustable height.

Alternative universal ceiling/floor/wall hanger.

Please note: the stock options listed here are only suitable for portrait display and with the same sizes used in series due to cable entry/exit points. Landscape/portrait and different size snapframes for use in the same display are available made to order.

Freelight Plus

Double-sided ceiling mounted display.

EU Design Registration No. 000433131

- No electricity. No maintenance. Probably the cheapest illuminated display available. Uses existing in-store lighting for illumination.
- Flat-pack design – easy to assemble and install.
- Graphic inserts are quick and easy to update.
- Printed inserts available (no minimum order quantity).

Each kit includes:

- Crystal clear outer lens panel.
- Opal 'lampshade' PVC insert- ideal for translucent vinyl or printed graphics.
- Pair of gloss white end caps.
- 2 ceiling hooks and 2 styles of button eyelets.

Recyclable: ABS end caps, polypropylene outer lens panel

648 x 256 x 226	1.3	FREELIGHTUNB

Coloured and/or pad printed end caps available (minimum order quantity 500).

Existing Lighting

Suspended ceilings offer prime advertising space and, with existing lighting, are perfect for Freelight Plus.

Freelight Plus

With no need for wires or power, Freelight Plus is quick to assemble and simply hooks into place using the fixing kit supplied.

High impact, low cost advertising

Most of the benefits of a traditional lightbox, but without the cost and inconvenience!

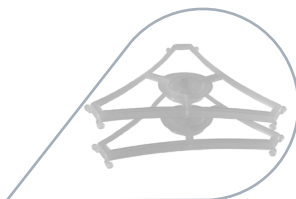

Mobiles

Suspended display for reactive or permanent promotions.

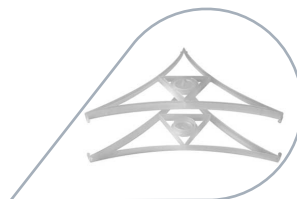

3 Connected

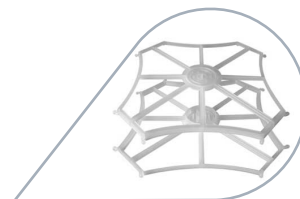

- High impact 3 and 4 sided hanging displays.
- Graphic panels simply clip on and off – quick and easy to change.
- Lightweight, flat-packed and easy to assemble.
- Use individually or link together (hooks included).
- No minimum order quantity.

3-sided petite top and bottom mouldings for 240mm – 400mm wide panels.

3-sided top and bottom mouldings for 400mm wide panels.

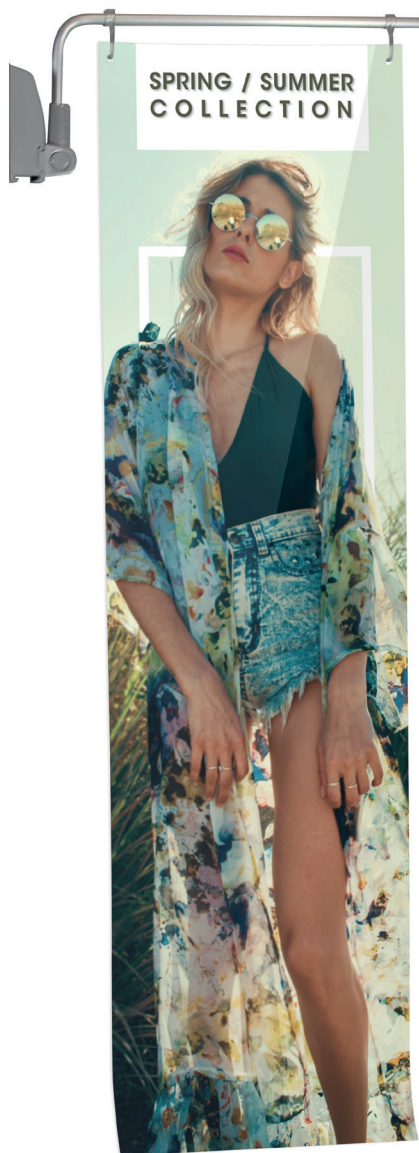

4-sided top and bottom mouldings for 400mm wide panels.

 Made To Order

Magnetic POS Flag Arm

Strong magnetic bracket attaches to any steel surface.

- Sometimes referred to as a Magnetic Aisle Flag Holder or Magnetic Aisle Fin.
- Perfect for double-sided projecting shelf messaging in supermarket and shopping aisles.
- For 210mm wide hanging graphic. Min height 297mm (A4) up to 750mm.
- No mechanical fixings or adhesives – can be easily repositioned if required.
- Preassembled and ready to use straight out of the box.
- 180 degree base rotation allows mounting to horizontal or vertical surfaces.
- Clear polycarbonate sliding hanging hooks to suit variable graphic hole positioning.
- Quick and easy graphic change.
- Suitable for single-sided or double-sided promotional messaging in paper or lightweight card or banner fabrics.
- Minimum order quantity 5.
- Print service available. Our standard double sided graphic offer is 440gsm lightblock PVC.

Magnetic bracket and release button to rotate flag arm.

Mount to horizontal or vertical surfaces.

Ideal for supermarket shelving advertising.

Shredded beef, peppers and scrambled eggs makes these breakfast tacos a firm favorite.

..... This is interesting!

65% of the world's coffee is drunk with different additives (milk, cream, spices, alcohol, sugar, salt, cinnamon, lemon)

35% of all coffee in the world is drunk without additives (black coffee without sugar and cream)

1 person in the world
per day drinks
3 cups of coffee

Indoor Counter/Table/Shelf

Promotion at the retail shelf display, fixture, service counter, bar or table comes in many forms.

The display products in this section, whether generic or specialist in terms of their market orientation, can be very simple in their form and function, but that doesn't mean we don't give them the same 'design for quality' considerations we apply to all our products.

Lightweight products that are often handled daily and prone to be knocked over or dropped on the floor need to be hard-wearing, durable, hygienic and easy to clean. Minimalist design is as much about optimising the promotion or message as it is about low cost manufacture.

From ticket and menu holders to free-standing leaflet dispensers, poster displays and chalkboards there is a wide choice of solutions for updatable messaging. Counterstand Snapframes, Grip Talker and Gripchalker and Pivot Gripper are worthy of particular attention.

When it comes to permanently printed solutions for brand endorsement, or to stimulate a call to action at the point of sale, there are low cost Shelf Wobblers to premium acrylic Brand Blocks, innovative flat-pack Dump Bins, Bar Runners and Counter Mats available.

Overture Menu Holder

Crystal clear menu holders for double sided paper inserts.

- Made in injection moulded general purpose polystyrene.
- Designed for style and strength.
- Oval bases with round edges, stylish and easy to clean.
- Finger cut out on top edge, making it quick and easy to change inserts.

- For a complete solution we would be delighted to quote for your printed showcards too!
- Sold in packs of 20.

190 degree range of display angles.

Recyclable:
polycarbonate

Print Services, Printed Posters and Printed Backlit Poster Films

Printed advertising materials are as relevant today, in our world of fragmented digital marketing, as they have ever been. Whether on the printed page or a shop front sign, banner or window sticker, print is reassuring, tangible, credible and engaging, and remains an excellent way to establish and reinforce your brand.

When it comes to applying this to point of sale, events or exhibition graphics, and in particular to longer-life outdoor-durable applications, we are masters at the art.

In addition to the branding that is applied to the majority of the products in this brochure we also offer outdoor durable Printed Posters and have recently introduced high quality Printed Backlit Poster Films, sometimes referred to as a 'Duratrans', for absolutely stunning illuminated promotion indoors and out. There is more information on Printed Posters and Printed Backlit Poster Films at the end of this section.

Our Print Capabilities

From our 67,000 square foot production facility, we offer screen, digital and dye-sublimation print supported by a variety of finishing processes.

Despite the rise of digital print technology, our screen printing department is as busy as ever. These two print processes very much complement one another to offer customers the best of both worlds.

The inks we use across all processes are generally eco-friendly water-based and UV cured, offering a minimum of 2 years of outdoor life. An extended life of 5+ years can be achieved from solvent based screen inks for more permanent signage installations.

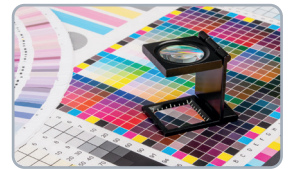

Colour Management

As part of our ISO quality management system we operate advanced ColourServer and SmartProfiler colour management to standardise colour profiles and printer calibrations for different output devices. Although fairly common in the off-set/litho print media sector, systems such as this are far less common, but no less important, for large format and digital print.

The benefit to our customers is:

- Consistent colour reproduction across different medias and outputs.
- Improved quality – such as optimised matching of Pantone colours from CMYK/mixed colour digital output.
- The system is also used to calibrate monitors in our artwork department allowing us to produce reliable visual representations of artwork files for proofing and production checks.

Varnish Over-Print

Although varnish is not essential, we sometimes recommend it for signage intended for outdoor use. As digital print is naturally matt, the finish is more inclined to attract dirt which can dull the image.

Benefits of varnish include:

- Enriched colour vibrancy and depth.
- Added protection from dirt and atmospheric pollution.
- Will help to repel dirt and keep the print looking brighter longer.
- Improved scuff and scratch resistance.
- Improved resistance to chemicals and solvents.
- Adds gloss.

Digital Printing

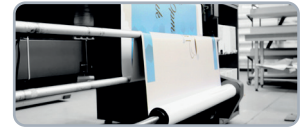

Some of the benefits of digital print:

- Full-colour photographic images
- One-off's/short runs and sampling
- Multiple/variable designs in a run
- High definition close-up viewing
- Printing onto uneven/textured surfaces

Digital printing offers faster turn-around and lower cost than screen on smaller runs because set-up times are minimal. Your digital artwork files once checked are ripped to one of our flat-bed or roll-fed printers which print all colours in a single pass. We control output definition and ink percentage depending on intended use or viewing distance.

Our state of the art flat-bed printers are able to offer a variety of finishes including spot varnish. For further details talk to our sales team.

It is very common for us to print a mixture of digital and screen processes to optimise the result and to produce the perfect reproduction of a customer's artwork. Digital is added for full colour elements and screen to add spot Pantone colours and/or varnish.

Screen Printing

Some of the benefits of screen print:

- Precise Pantone or spot colour matching.
- Simple spot or line colour designs.
- Bold, vibrant colours and text due to thicker ink deposits.
- Extended outdoor life.
- Adding varnish to screen or digital prints to enrich colour, add gloss and increase protection.

Screen is not suited to short runs. Artwork has to be colour separated from which a separate film and screen stencil is produced resulting in what can be prohibitive origination/set-up costs.

We manage artwork files and colour separations in-house and produce our own films and screens which keeps costs to a minimum.

Dye-Sublimation

Textile & fabric printing.

Unlike other printing techniques that layer ink onto a surface, dye-sublimation forces the ink to penetrate into the material by use of heat – a heat fixation process. It is used widely and especially for textiles (soft signage) to produce flags, banners and retail/exhibition graphics.

Benefits of dye sublimation:

- Highly scuff resistant as a result of being fixed into the media.
- Produces graphics on textiles that can be washed and folded without fear of damage.
- On thinner fabrics it produces excellent show-through. Although a mirror image on the reverse it is ideal for the likes of double-sided Flying Banners, producing a colour vibrancy on the rear that can be impossible to distinguish from the front.

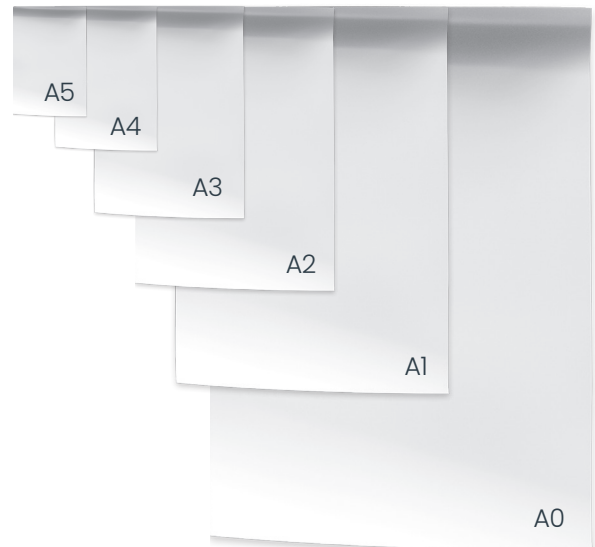

Printed Posters

We offer a competitive, fast turnaround printed poster service on quantities from one!

- Premium matt white 185mic/155gsm polypropylene poster film.
- Competitively priced outdoor poster solution.
- Waterproof, tear resistant and highly durable.
- Ideal for indoor and minimum 3 – 6 month outdoor use.
- Exceptional print quality.
- All common poster sizes available.
- No minimum order quantity.

For a small additional cost posters can be preloaded in your sign or poster frame prior to despatch. Please call our sales team for more information.

Printed Backlit Poster Films

Sometimes referred to as a Duratrans or Lightbox Poster these are stunning translucent printed film inserts for 'backlit' lightboxes. The optimised combination of media film, print definition and ink saturation delivers stand-out illuminated graphics of the highest quality.

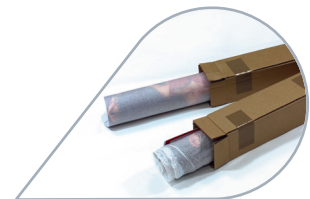

- Ideal for lobby/reception, menu display, trade outlets, showrooms, shopping malls, airports/duty free, motorway services, casinos, cinemas, restaurants and takeaways, museum and gallery, retail stores, trade show exhibit halls, etc.
- Perfect for lifestyle photos in luxury goods promotion.
- Circa 200 micron polyester film with special diffusion coating.
- Indoor and outdoor film options – both durable, lay-flat and tear resistant.
- Standard and custom sizes up to 1365 x 1800mm (includes 6 sheet).
- Environmentally friendly solvent-free print.
- No minimum order quantity.

Note – Printed Backlit Poster Films will appear darker than normal, only showing their true colours, definition and brilliance once illuminated from behind.

Perfect with our range of edgelit lightboxes.

Interleaved, rolled and packed up to 5 to a carton as standard.

Outdoor Poster Materials

To ensure best performance against condensation/moisture ingress in outdoor poster advertising, we recommend:

When it comes to outdoors, however good a frame, display or sign holder is at protecting a poster from the weather, the poster media needs to be moisture resistant at the very minimum to help protect it from dampness in the air and worse the soaking that can take place due to condensation.

For short term (up to 3 months) use outdoors, water or moisture resistant paper, sometimes referred to as 'wet strength' paper, should be fine. It is commonly used for pasted billboard advertising.

For longer term use we would recommend synthetic paper, sometimes referred to as 'poly poster', or a plastic film media with appropriate UV and moisture resistant qualities. Laminating paper both sides in a plastic film (encapsulation) is an option but will be expensive in relative terms.

The matt white polypropylene film we use for all our outdoor posters, for short term applications too, offers excellent performance and is competitively priced, even when compared to moisture resistant paper medias.

7 top artwork tips:

- Always make sure that there is ample space around text and images – adhere to safe areas.
- Use High Resolution settings (300dpi) or Vector artwork for maximum quality.
- Utilise complementary colour schemes for inspiration.
- Embed your fonts for accurate reproduction.
- Proof your document thoroughly.
- Convert your graphic to CMYK (leave spot/pantone colours available in your artwork if used).
- Reduce heat absorption (solar gain) on outdoor poster signs by limiting regions of dark colour print.

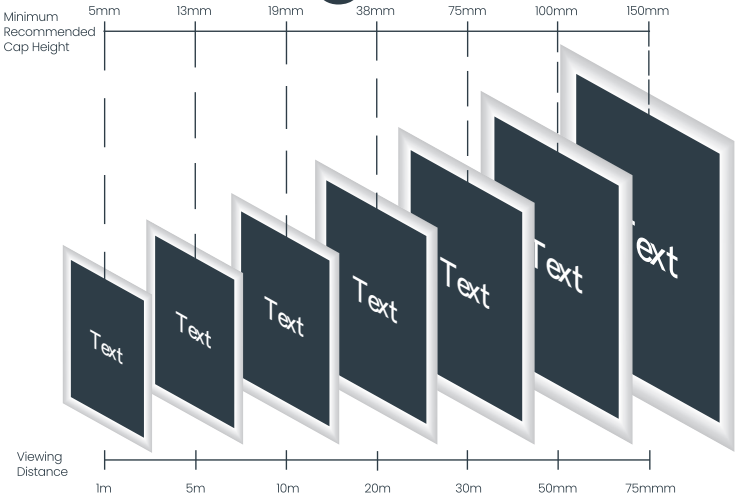

Paper Sizes

Conversion Table

Size	Millimetres	Inches
A7	74mm x 105mm	2 7/8" x 4 1/8"
1/3 A4	99mm x 210mm	8" x 4 1/4"
